RARE COIN AUCTIONS

OFFICIAL AUCTIONEER OF THE PCGS MEMBERS ONLY SHOW

THE REGENCY AUCTION 34

SEPTEMBER 26 | BELLAGIO | LAS VEGAS

Dear Collectors,

Welcome to the 34th Regency Auction. As always, we never know how the auction is going to look until after it is all put together, though, prior to our consignment deadline, we were already thrilled with the coins consigned. With the ANA show and the consignment deadline now passed, the final offering is one for the history books. We know that there will be coins for all sorts of collectors, from type coin generalists to dedicated die variety specialists, you will find something to add to your collection in this auction.

Spread throughout the sale are select type coins from THE TYPE SET, the finest ever, assembled by Oliver Jung. We also are proud to offer an extensive offering of Lincoln Cent varieties in the Hanover Collection. A GEM set of Proof Liberty nickels, the Meridan Collection, has superb examples mostly with cameo contrast and CAC approval. Many other important consignments have been put into the sale, from collectors and dealers, both large and small. We think attention should be paid to the silver dollar section, as there are amazing early, Seated, Trade, and Morgan dollars that will delight any collector. 20th Century condition rarities abound as well.

This assemblage of numismatic rarities is exceptional, even for a Legend Regency Auction. Each sale gets better and better! As you have come to expect, our expertly curated boutique auctions contain only coins that pass our quality standards, so you can bid with confidence. We passed on nearly 100 coins that were offered to us for this auction.

Compiling a list of highlights out of our 546 lot auction is quite difficult; the concentration of very important, high end coins in this sale is amazing. Every coin is special in its own unique way, just read our descriptions. After much consideration the following highlights are of exceptional quality and importance.

Lot 5. 1C 1856 FLYING EAGLE. PCGS PR66 CAC
Lot 52. 1C 1944-D/S PCGS MS67 RD CAC
Lot 112. 5C 1889 PCGS MS67+ CAC

Lot 468. \$2.50 1883 PCGS PR66+ DCAM CAC
Lot 478. \$5 1823 PCGS MS63+ CAC

We invite you to attend our auction in person on Thursday, September 26 at the Bellagio in Las Vegas. As always, PCGS and LRCA will have the red carpet rolled out for you. If you have never attended a PCGS Members Only Show, you really should, and see why these are some of the most important events of the year!

Happy Hunting
Julie Abrams

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.
- h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making,

and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a “better” coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation’s greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics’ financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector’s can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks’ programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

LOT 1

1/2C 1855 PCGS MS65 RD

An unsullied GEM with fathomless mint red evenly distributed over luminous, frosty luster. ORIGINAL and CHERRY! Insignificant light carbon specks are noted. The central motifs are struck to full advantage, but the borders have the typical weakness encountered on issues struck from 1855-1857, although no real reason is known. Suspicion is it probably has something to do with the condition of the knuckle-action press from which they were coined.

It is likely that this coin was part of a hoard of uncirculated examples found during the 1930s by Thomas L. Elder. Conjecture is this hoard was a byproduct of the Bank Holiday which was

ordered by President Roosevelt in 1933. While many banks failed or reorganized, hundreds, if not thousands of bags of halves, dollars, Barber silver coinage and large cents as well as half cents emerged from bank vaults during the moratorium on the banking business.

PCGS 39, NGC 12. There are a wide range of APRs for PCGS graded GEM examples, ranging from \$2,640 to \$3,525 in their most recent appearances, and the current PCGS Price Guide value is listed at \$5,250. Just four coins are graded finer in the RD designation, all MS65+ RD, making this GEM among the finest certified for date or type collectors. Worthy of a strong bid!

PCGS# 1235 | ESTIMATE: \$3,000+

LOT 2

L1C 1833 PCGS MS66 RB CAC

Ex Naftzger and D. Brent Pogue Collections.

By now, you know that our principals love any coin that was in the world famous Naftzger Collection. His taste in quality and eye appeal was impeccable!

This marvelous, lustrous N-3 is tied for FINEST KNOWN in the Noyes Census, and is the plate for the C/C die state. A bold, vibrant mint luster blooms with a superb radiant glow, that comes to life with exceptionally brilliant original mint red. The heavy flow lines from the advanced state of both dies are partially responsible for the vivacious luster on both sides. The central devices are sharply struck while the flow lines tend to weaken some of the peripheral devices. Regardless, this exceptionally high end GEM has a stunning visual allure that places it among the FINEST that survive.

Boasting an extensive provenance that includes Ted Naftzger and D. Brent Pogue, it is most recently from THE TYPE SET, formed by Oliver Jung. Legend Rare Coin Auctions is proud to offer this amazing large cent.

PCGS 3, NGC 0, CAC 2. This coin sold for \$44,650 in the March 2017 Pogue, Part V Collection sale. The opportunity to acquire such a great large cent usually only occurs when all time great collections are offered in auction. Don't let this one pass you by!

PCGS# 37025 | ESTIMATE: \$30,000+

LOT 3

L1C 1838 PCGS MS66+ BN CAC

N-7. Impeccable surfaces, luster, color, everything! One of the FINEST graded at either service in all color designations.

Brilliant luster rolls throughout, amplifying the beautiful mahogany surfaces. Traces of the original mint red color cling to the protected areas of the design, making the sharply struck devices really stand out with a dramatic visual allure. You know how much our owner, Laura Sperber, loves GEM large cents, and you will certainly fall in love with this one!

PCGS 31, NGC 15, CAC 12. There are four in MS66+ BN with just two finer. The only one to ever sell brought \$7,638 back in June 2017, and we think this one is of even higher quality. Bound for a SUPERB type or date set of large cents and worthy of a very strong bid!

PCGS# 1741 | ESTIMATE: \$9,000+

LOT 4

L1C 1855 UPRIGHT 55. PCGS MS66 RD

If there is one series that you really should not expect pristine, original luster it is the Large Cent series. These large copper coins were not often struck under the best of circumstances on planchets made from extremely reactive metal. Toning, corrosion, and other environmental issues have left precious few GEM Red survivors for collectors.

Nearly SUPERB in quality, this PQ late date Coronet large cent possesses a very strong, vibrant original red mint luster that swirls on both sides of this beautiful GEM. Sharply struck devices on both sides are given extra depth by the wonderful luster. The only thing from perfection is a microscopic fleck or two on the reverse--otherwise this SUPERB large cent is flawless.

PCGS 17, NGC 6. While not CAC-approved, the eye appeal is very close to the CAC coin we sold in December 2017 for \$8,519. The current PCGS Price Guide value is listed at \$6,500, and while there are three graded finer, all MS66+ RD, only the Hines-Starr-Cardinal-Pogue PCGS MS66+ CAC, has ever sold, realizing \$35,250 in March 2017. A great looking type coin worthy of any great type or date set of Large cents!

PCGS# 1909 | ESTIMATE: \$5,000+

LOT 5

1C 1856 FLYING EAGLE. PCGS PR66 CAC

Unbelievable quality in every possible way! Truly a magnificent example of this important numismatic rarity and one of the absolute **FINEST KNOWN** examples! It is a real honor for Legend Rare Coin Auctions to offer this **AMAZING GEM!**

Everything about this coin is **SUPERB**—both technically and aesthetically! Watery mirrored fields are flashy and bold with a seductive reflection. They are icy smooth and the epitome of cleanliness and extreme clarity. The razor sharp devices stand out with a dramatic, almost three dimensional effect on both sides. The design elements are thickly frosted and the reverse contrast is essentially full cameo. The obverse has rich violet-blue and rose overtones that blend with the original tan, gold, and brown patina. The reverse is an even tan-gold with delicate pastel iridescent hues evenly dusted over the surfaces. Using a strong glass, we are totally unable to locate a single mark, tick, line, or fleck anywhere, of any kind, that is worthy of mention. Needless to say, this is by far one of the most beautiful and high quality **SUPERB GEM** Flyers we have ever had the pleasure of offering!

By the early 1850s, the rising price of copper forced the mint to begin experimenting with new alloys and reducing the size of the large cent. Various patterns and proposed compositions were tested, and in 1856, a limited quantity of small-sized copper-nickel Flying Eagle cents were struck. While the final mintage is still unknown, it was indeed small, just enough to test the dies and show the concept to Congress. It is thought that they were restruck up to 1860. Long considered one of the “blue chips” of numismatics, a group of coins that is always in demand, regardless of the market conditions, in all grades, the 1856 Flying Eagle cent is a truly historic coin.

PCGS 5, NGC 3, CAC 2. Only one PCGS/CAC coin has ever sold in auction, realizing \$88,125 in the 2016 FUN auction. This marvelously toned, Premium Quality GEM is worthy of the **FINEST** of collections and is worthy of a premium bid. **NOTE:** PCGS has graded just two coins higher, a PR67 and a PR67+, which have never sold in auction, but would likely be a six-figure coin if it came up today. Needless to say, this is an opportunity of the utmost importance for any collector!

PCGS# 2037 | ESTIMATE: \$60,000+

LOT 6

1C 1859 PCGS MS66

A wonderful GEM example for the first year of the series and a single year type coin with the laurel wreath reverse. EXQUISITE mint bloom and luster are present over glowing, golden fields. Exceptional strike with all of the design details struck to full advantage, not least of which is the full headdress feathers, 4 strong diamonds and sharp veins in the leaves of the laurel wreath. A popular and desirable first year issue and a perennial favorite among collectors. REFRESHINGLY free of carbon or fly specks and just a tick or two on the reverse away from a + grade or finer, which requires strong magnification to locate.

PCGS 30, NGC 10. This is another date that has a very wide range of prices realized in auction, with the current PCGS Price Guide value listed at \$5,200 and the average APR being \$5,304. Extremely RARE any finer, just 6 grade finer at PCGS, all MS66+. This is a top-drawer example that only goes home with you if you are an aggressive bidder.

PCGS# 2052 | ESTIMATE: \$4,500+

LOT 7

1C 1860 POINTED BUST. PCGS MS66+

CAC

EXQUISITELY struck with complete definition of the feathers in the headdress, four distinct diamonds and a strong shield. Golden fields are accentuated by apricot and dusty rose highlights which skip playfully over the undulating luster.

Although there are no mintage figures to indicate how many of the Pointed Bust type were coined, it is clear that the Pointed Bust is the rarer of the two obverse hubs made for the year. As a whole, for the year, GEM quality specimens are exceedingly hard to come by.

PCGS 14, NGC 2, CAC 8. Just 3 pieces have garnered the coveted MS66+ designation at PCGS. The current PCGS Price Guide value is listed at \$12,500, and we sold one for \$14,100 in our May 2017 Regency Auction. Just two MS67s have graded finer at PCGS, and if one came to market today, it would be expected to fetch between \$32,000 and \$35,000. Worth of a strong bid indeed from the advanced Indian cent collector!

PCGS# 2056 | ESTIMATE: \$11,000+

LOT 8

1C 1862 PCGS MS67

This ultra high grade beauty, easily one of the best preserved 1862 cents is among the FINEST graded at either service. Clearly worthy of its placement in the greatest type set of all time. Boldly lustrous surfaces show light copper, nickel-golden tan patina, as brilliant in 2019 as it was 157 years ago when it first fell off the dies in Philadelphia. Only the tiniest specks are noted under intense scrutiny. The eye appeal is beautiful!

PCGS 13, NGC 5. The most recent example to sell brought \$5,173 in the 2018 FUN auction, and we sold one for \$6,169 in our July 2017 Regency Auction. The current Collectors Universe value is listed at \$6,500. There is just a single MS67+ graded finer that is worth \$20,000 or more today. This is a certainly a SUPERB example for any type or date set. Good luck.

PCGS# 2064 | ESTIMATE: \$5,000+

LOT 9

1C 1864 BRONZE. PCGS MS66 RD CAC

A simply stunning GEM that is also endorsed with an Eagle Eye Photo Seal; this double endorsement places this beauty in a rarified class which will delight any advanced collector of Indian Head cents.

Brilliant red coloration is set aglow by a strong mint luster. The palest dusting of violet-rose augments the exceptional originality of this visually impressive early Indian cent. Well struck and essentially perfect surfaces delight the viewer, and the quality holds up even under strong magnification. Housed in an old green tag holder.

PCGS 43, NGC 27, CAC 21. With just five coins graded finer, this marvelous PQ GEM is deserving of a very strong bid, as it received when it sold in the 2018 ANA auction for \$9,600. If you missed this coin last summer, now is a very rare second chance opportunity to bid again! Good luck!

A very pretty and original toned GEM. Tan and olive iridescent toning is dusted over a brilliant red and gold lustrous surface. The typical blunt strike is seen at the reverse wreath. A few tiny toning flecks can be seen but do not detract from the outstanding eye appeal.

PCGS 96, NGC 75, CAC 29. The most recent example to sell in auction realized \$2,640 in February 2019 and the current PCGS Price Guide value is listed \$3,000. Rare finer, this is a popular date and grade for the collector.

1C 1877 PCGS AU58 CAC

An AWESOME example of this classic, key date. Who could ask for anything more? With a CAC designation, a PhotoSeal sticker and card of authenticity, this coin is rocking it! And we haven't even started to describe the surface and strike yet! Booming luster rolls in waves over red and brown surfaces graced by a whisper of lime green and lilac toning peeking through from protected areas. It's all about the strike on Indian cents and this piece is a looker; fully delineated feather details extend all the way to the tips, and 3 of the 4 diamonds are clearly present, attesting to the strong strike. A couple of random tick marks are noted which are commensurate with the grade.

PCGS 101, NGC 88, CAC 26. The current PCGS Price Guide value is listed at \$4,250 and the most recent PCGS/CAC example to sell in auction realized \$3,643 in our May 2018 Regency Auction. Have you been waiting to add this key date to your collection? The wait is over!! This beauty will be a highlight to any Indian Head cent collection. Everyman Registry Set collectors, this is a piece worthy of bidding fervor.

LOT 13

1C 1886 VARIETY 2. PCGS MS65+ RD CAC

There are two varieties of 1886 cent, distinguished by the letters that the lowest point of the Indian's headdress points to. For Variety 2, as here, it points to the space between the C and A of AMERICA, while Variety 1 the feather points to the space between I and C. The variety offered here is certainly scarcer in the highest Red Mint State grades, as this coin is tied for second FINEST graded at PCGS.

The Variety 2 cents also have a very distinctive luster that is extremely satiny and not a brilliant cartwheel luster as often seen. The present coin has a vibrant and bold red color that has very attractive golden accents that really pop when rotated. Struck from a later die state, the dies show evidence of clashing and some crumbling at the peripheries which help explain some of the bluntness of definition in areas. We note a few, insignificant flecks for accuracy, the largest is at the upper right serif of E in ONE, which will serve as a pedigree marker for this impressive GEM!

PCGS 10, NGC 9, CAC 5. There are only 2 in MS65+ RD, the other one sold in the 2015 ANA auction for \$18,800 and the current PCGS Price Guide value is listed at \$22,000. There are just seven MS66 RDs finer, which carry a PCGS Price Guide value of \$42,500. We suggest if you are working on a world class set, you do yourself a favor and bid on this GEM. Good luck!

A lovely, original GEM RED 1893 cent housed in an old green tag holder. Radiating mint luster blooms on both sides accenting a bold strike and generally clean surfaces. A fleck or two, and a tiny contact mark are all that keep this GEM from an even higher grade.

PCGS 37, NGC 24, CAC 15. The most recent example sold in the 2018 ANA auction for \$2,880 and the current PCGS Price Guide value is \$2,650. With just 10 finer, and 66+s valued between \$8,000 and \$10,000, this coin represents a great value. Good luck!

FINEST KNOWN FOR THE GRADE AND DESIGNATION!
SERIOUSLY, could an Indian cent designated as brown be any prettier than this piece? This is the look we LOVE. Warm chestnut brown fields are enhanced by generous amounts of mint red peeking through thick, frosty luster. Not a spot or mark to be found anywhere, even with a glass! We haven't even mentioned how tough and highly sought after this date is, either. One of the most popular of the later dates.

PCGS 1, NGC 4, CAC 1. Although a coin sold for \$600 in 2011, our contention is this coin should fetch a price comparable to a Red and Brown issue, as it is super close to one. Better keep the bidder paddle up on this fantastic coin if you intend to go home with it!

BANK WRAPPED roll RED! Fathomless frost and mint bloom accent the surfaces. Razor sharp device details. A barely noticeable speck of carbon is noted in the date and is only mentioned for the sake of accuracy. So much nicer than the "average" example which seems to display a golden color, not a rich ORIGINAL MINT RED like this piece. Maybe that is why there are so few CAC examples versus the number slabbed!

PCGS 148, NGC 51, CAC 29. There are 31 graded MS66+ RD. Only one auction record for a CAC piece, our sale in September 2018 for \$2,530, and the current Collectors Universe value is listed at \$2,450. A generous bid is called for if you want to be the lucky owner!

A very strong, bold mint luster radiates brilliantly accenting the soft golden highlights seen among the fiery red hue. Sharply struck up, this GEM has a stunning high end look that with just a touch more vibrance to the red would be a \$20,000 coin.

PCGS 9, NGC 9, CAC 5. There are just two graded MS66+ RB and NONE finer in the designation. NO CAC approved example in any MS66 RB has ever sold in auction. Collectors Universe lists a value of \$10,000 in MS66+ RB and keeping in mind that a PCGS MS66 RD CAC sold in the 2018 ANA auction for \$21,600, we think this 95% RD example offers the collector a SUPERB option! An amazingly high end and high grade example of this final Indian cent and Key date issue in this ever popular series. A

low mintage combined with extensive use in commerce has left very few GEM survivors, especially in this lofty state of preservation for collectors to choose from.

Totally clean surfaces are not as common on this date as you might think, indeed its surfaces are clean and above average. This cataloger believes this coin has been safely stored since the day it left the bank.

A strong glowing luster beams from all

This superb piece is one of the few true wholly original GEM's of this exceedingly rare date that exists. The quality is HIGH END for sure! We consider this the KING of Proof Indian Cents.

Surprisingly deep mirrors are super clean, have good clarity, and are nicely reflective. There are no flecks or spots anywhere. The obverse color is a totally original rich mix of gorgeous green/violet/brown/blue colors (these colors really stand out). They swirl vividly all over, you do NOT have to tilt the coin to see them. The reverse is about 50% GEM faded Mint Red and has a few other colors mixed in. Miss Liberty and the details are pinpoint sharp in strike and boldly stand out. The headdress has strong frost. The eye appeal is sensational!

It is estimated only 20 were ever minted. PCGS 1, NGC 0, CAC 1. The current Collectors Universe Value for this coin is \$65,000. Our sister company Legend Numismatics owns the coin. They felt the price they paid was just too cheap. The last time they owned it they paid \$54,343 in January 2014. PCGS has graded only one BN higher, a PR66 (which sold for \$129,250 in September 2013). This exceedingly rare Civil War era date is not found in any frequency in ANY grade in Proof. We are proud to own and offer this marvelous piece for addition to your superb collection. As time goes on, we strongly feel the value will only increase as you will not be able to find ANY!

THE HANOVER COLLECTION OF LINCOLN CENT VARIETIES

Welcome to the Hanover Collection of Lincoln Cent Varieties. This is probably the finest and most extensive specialized collection like this offered. The entire collection consists of over 200 coins, the most valuable being offered at auction in the lots that follow. A listing of the balance appears at the end of the auction catalog, and those are available for direct sale to interested specialists.

The Lincoln cent, designed by Victor David Brenner in 1909, is one of the most beloved series in all of American numismatics. Its ubiquity makes it one of the most mass produced products ever in the history of the world. Over the first 100 years of circulation, the design type changed just one time, in 1959 when the reverse changed from the wheat stalks to the Lincoln Memorial. Initially struck in a bronze alloy, it changed only one time in 1943 when due to the war effort, the composition changed to zinc coated steel. Rising prices of copper led to the copper coated zinc planchets introduced in 1982. In 2009, a series of four new reverses commemorated Lincoln's bicentennial. The final design of the four, representing the Union with a shield, continues to today.

With hundreds of billions of examples struck over the course of 110 years, the Lincoln cent series is among the most popularly collected series in American Numismatics. Most collectors have at one time or another collected them. This cataloger remembers going through change jars at home on rainy Saturdays with his

grandfather, trying to assemble as complete a date/mintmark Whitman folder set as possible. Some collectors seek the FINEST mint red examples of each date and mintmark and major variety. Some collectors, as here, start out that way, then expand into die varieties like doubled dies, repunched and overpunched mintmarks, and other varieties that are highly collectible, and listed in the Cherry Picker reference on die varieties. This classic reference, now in its 6th edition by Bill Fivaz and J.T. Stanton has inspired collectors to take a closer look at their coins. Many of these varieties, even after many years of being sought, are known by just a handful of examples.

The Hanover Collection features a very large selection of these varieties from 1909 to 2014. Many are, if not the finest PCGS certified examples, among them. You can see instantly by looking at the depth and scope of the collection that this collector truly loved the pursuit of these coins, surely looking through countless listings in auctions, bourse tables, and dealer websites looking for these varieties. The collector is very sad to see these coins go, but after having sold his regular set of Lincoln cents years ago and few opportunities to upgrade his varieties, he is moving on to a different area of collecting. LRCA is honored to have been consigned this important collection to this sale.

As this is an extensive offering, do not forget to review the list of the coins available for private sale at the last pages of the catalog.

LOT 32

1C 1909 V.D.B. DOUBLED DIE. PCGS MS66 RD CAC

This is a lovely GEM example of this popular first year Lincoln cent variety. The doubling is most evident at LIBERTY and 1909, clearly evident with a low power glass. The radiant red luster glows all over accenting the sharply struck devices. Free of any flecks, marks, or discolorations that distract the eye, this Premium Quality GEM is worthy of a high end collection for sure!

PCGS 23, NGC 0, CAC 20. The most recent PCGS/CAC example to sell in auction was the one in the March 2018 sale of the ESM Collection, which realized \$7,200; prior to that, there was a wide range of APRs from \$2,350 to \$4,715. The current Collectors Universe value is listed at \$3,500. Just 13 coins are graded finer. Bound for a high end collection of Lincoln cents. Good luck.

1C 1909 V.D.B. DOUBLED DIE OBVERSE.

PCGS MS67 RD

FS-1102 (012.1). There are two Doubled Die obverse varieties listed in the Cherrypickers' Guide, with this one being the scarcer of the two. The doubling is not as dramatic as on the FS-1101, and appears as a thickness in the date and the letters of LIBERTY. The presently offered SUPERB GEM is tied for second FINEST certified at PCGS, with just one other, which is now impounded in the High Desert Collection. Full RED, fiery mint luster radiates with a fiery brilliance. Sharply struck devices stand out against the silky smooth surfaces; indeed the surfaces are free of all but the most minute traces of contact that you need a powerful glass to locate. The eye appeal is as bold, brilliant, and fresh today as it was the day it left the dies.

PCGS 2, NGC 0. The other example sold in the 2012 Central States auction, where it sold for \$24,150, and was purchased by the "High Desert" collector. Collectors Universe currently lists a value of \$28,500 in their Price Guide. Keep in mind that in June 2009, a regular Doubled Die Obverse (more common variety) in MS67 RD sold for \$23,000. There is a 67+ RD reported, at PCGS with a Price Guide value of \$32,500. This is one of the absolute FINEST and boasting such a great eye appeal, we know that bidding will be fierce to bring this coin home.

1C 1909-S/S RPM. FS-1501. PCGS MS66 RD CAC

The FS-1501 is less well known than the Red Book listed S/ Horizontal S variety, but is scarcer in all grades, indeed, this MS66 RD is TIED for FINEST graded at PCGS with just one other. The repunching is evident with the first S punch slightly higher to the upper right. Intense, totally original RED luster and color glows with a strong brilliance that imparts a bold visual effect. Sharply struck devices show off a crisp definition on both sides. The tiniest ticks are seen with a strong glass, none of which have any effect on the excellent visual allure of this GEM!

PCGS 2, NGC 2, CAC 45. (This coin is listed under the S/ Horizontal S population at CAC). PCGS CoinFacts does not report any auction records for the FS-1501 variety in this lofty, finest seen grade level, but there is a Price Guide value of \$5,000 listed. Indeed, the only APR for a PCGS-graded GEM quality coin was for a PCGS MS65 RD coin that sold back in August 2006. This PQ example, tied for FINEST with just one other at PCGS offers a lot for the advanced variety collector. This opportunity may not occur again!

**LOT 35****1C 1909-S/HORIZONTAL S. PCGS MS66+ RD CAC**

FS-1502. This is the popular RED BOOK variety, with the first S mintmark punched into the die in a horizontal orientation and then corrected. The repunching on this example is readily evident and visible even without the aid of a glass.

The SUPERB quality surfaces are very high end and boldly lustrous with boldly impressed details. There are zero imperfections anywhere to mention, even under the careful inspection with a glass. The eye appeal is exceptional in every way.

PCGS 112, NGC 26, CAC 45. The PCGS Population report includes 22 in MS66+ and just two graded finer. There have been 13 PCGS/CAC auction prices realized between January 2017 and June 2019, with an average APR of \$4,456. The current PCGS Price Guide value is listed at \$3,750 and keep in mind that the only PCGS MS67 RD to sell brought \$24,000 in March 2018. This borderline SUPERB GEM has a great eye appeal, and will see very strong bidding for sure. Bound for a great set indeed!

**LOT 36****1C 1910-S/S RPM. FS-502. PCGS MS66 RB CAC**

This is the FINEST graded in the RB category, and there are just a few in RED examples graded higher. This is a scarce variety, with the first punching of the S-mintmark slightly high, then repunched lower, the upper loop of the first S seen above the second.

Well struck, lustrous, and very appealing with just a delicate mellowing of brown over the original red surfaces.

PCGS 1, NGC 1, CAC 14. (This coin is included in all MS66 RB at CAC). This GEM has not appeared in auction and there is an auction record from 2006 in MS65 RD that brought \$2,185. In 66 RB, there is no PCGS Price Guide value, but in 65 RB, the value is \$1,650 and in 66 RD it is \$5,000. This CAC-approved, high end GEM will see very strong bidding from the advanced variety collector looking for a condition census level grade.

PCGS# 2439 | ESTIMATE: \$1,250+

**LOT 37****1C 1922 NO D. STRONG REVERSE. PCGS MS62 BN**

One of the few times in the Lincoln cent series that a die variety has made it into the main stream of collecting, and is considered a part of the main set. In 1922 the only cents were struck at the Denver mint.

The presently offered example is a rare Mint State survivor. Evenly toned in a rich brown with accents of pale blue that is brought out when the satiny lustrous surfaces are rotated in a light. There are a few tiny ticks that are encountered under the aid of a strong glass, but they do not detract from the excellent eye appeal.

PCGS 28, NGC 11. The last PCGS MS62 BN to sell in auction realized \$12,750 in a November 2017 internet only auction. That was the first example to sell since 2013. These do not appear with any frequency. VERY RARE finer in the BN category, and excessively so in any RB or RD category. A coin that will see very strong demand from anyone working on a high grade Registry Set of Lincoln cents.

1C 1927-D/D RPM. FS-501. PCGS MS64 RB CAC

The repunching of the D is most evident to the left of the upright as well as inside the loop. This is among only four coins in the entire RB designation, all graded MS64. Brilliant original red glows around the devices with a soft golden brown overtone. Accents of iridescence can be seen as you rotate the lustrous surfaces in a light. The eye appeal is exceptional.

PCGS 4, NGC 0, CAC 36. (This coin is included in all MS64 RB at CAC). Collectors Universe lists a value of \$3,300 but there are no relevant auction records in RB or RD grades seen. The present example has a much higher end look and is much closer to a GEM classification. A very rare opportunity for the advanced Lincoln cent variety collector to add one of the FINEST KNOWN examples to their set. Good luck!

1C 1929-S/S RPM. FS-501. PCGS MS65 RD CAC

This is a truly RARE variety, and the present coin is tied for FINEST in the RD category. The upper portion of the underlying S is seen above. This is a tough variety to find in any grade. Bold and totally original mint red luster and color dazzles the eye. Nicely struck and very high end eye appeal. A scattering of minor contact can be detected but are appropriate for the assigned grade. A real prize for the advanced collector.

PCGS 7, NGC 0, CAC 27. (This coin is included among all MS65 RD 1929-S cents at CAC). There have been two examples sold in auction, the most recent in August 2012 for \$2,585, and prior to that one sold in June 2010 for \$3,565. The current Collectors Universe value is listed at \$3,200. This coin may well bring that, or more. Good luck.

1C 1928-S LARGE S. FS-501. PCGS MS65 RD

This is the SINGLE FINEST example of this Large S mintmark variety graded by PCGS. The size of the mintmark is clearly evident. Boldly lustrous throughout on both sides. Brilliant, original RED surfaces glow with a shimmering satiny bloom. Nicely struck, and the surfaces are of GEM quality. A few teeny flecks throughout, which might be why CAC did not place a green sticker on the holder - but the eye appeal is not impaired.

PCGS 1, NGC 0. The current PCGS Price Guide value is listed at \$4,500, which is a small premium over the \$4,000 that is listed for the regular variety. The most recent PCGS MS65 RD (regular mintmark) brought \$5,280 in January 2019 and prior to that, they sold in the \$2,280 to \$4,230 range going back the last three years.

1C 1935 DOUBLED DIE OBVERSE. FS-101. PCGS MS67 RD CAC

This is the SINGLE FINEST example graded at PCGS and is very high end, worthy of its CAC approval! Noted in the Cherrypickers' Guide to be "exceptionally rare in Mint State. It is well known to Lincoln cent and variety specialists, yet very few specimens have been located." Moderate doubling can be seen with a glass, most evident on the date. The surfaces are mint fresh, with bold, radiating mint luster that glows with an intense, fiery glow throughout. An exacting blow from the dies imparted a crisp strike on both sides. We are unable to locate any serious marks or flecks on either side.

PCGS 1, NGC 0, CAC 1. The current Collectors Universe value is listed at \$4,250, but there are no auction appearances in any grade above MS64 in the RD category. The CoinFacts Plate coin and a very high end example that will delight any advanced Lincoln cent variety collector--bound for a world class collection that ranks at the top of the PCGS Set Registry.

1C 1936 DOUBLED DIE OBERSE. TYPE 1.
PCGS MS66 RD CAC
 FS-101. This is the boldest of the three doubled obverse varieties struck in 1936. The doubling is very clear and evident at the date, LIBERTY, and IN GOD WE TRUST. Listed in the Red Book, this popular variety has gained a large following among Lincoln cent collectors, and it is included with the 1917, 1955, 1969-S and others as part of the mainstream series. Among the very FINEST known, with just a single MS67 RD graded finer.

A very high end PQ MS66 RD that has a fiery, bold mint luster that is as vivid a brick red as the day the coin fell from the dies. A tiny tick or two are seen with the aid of a strong glass, but essentially devoid of all distractions on both sides. Well struck, the reverse shows a fuller definition than the obverse, but that side also displays nicely rendered details. The eye appeal is very pleasing and a coin worthy of the FINEST of sets.

PCGS 7, NGC 2, CAC 4. NO CAC approved example has ever sold in auction. We traced this impressive GEM to the June 2010 sale of the Brenda John Collection, where it realized \$11,500. Today, the Collectors Universe value is listed at \$10,000. Just a single MS67 RD is graded finer at PCGS, which has never sold in auction, making this CAC-approved example likely the FINEST available for some time. We anticipate a very strong bid when it crosses the block! Good luck!

1C 1936 DOUBLED DIE OBERSE. TYPE 2. PCGS MS66 RD CAC
 FS-102. This is the second of the three Doubled Die obverse varieties which was created when a hub used for 1935 cents was reused with the 1936 date, showing doubling at the letters of LIBERTY and the date digits. This is a Premium Quality GEM that boasts a bold orange-gold hued RED on both sides. There is nary a trace of any kind of contact on the either side, and there are only a few microscopic flecks noted for accuracy.

PCGS 11, NGC 2, CAC 6. This is the famed Jack Lee Estate coin, which most recently sold in February 2009 for \$5,463. (Jack Lee purchased this coin from a July 2008 auction for \$6,900). The only CAC-approved example to sell realized \$3,450 in the 2011 ANA auction. The current Collectors Universe value is \$3,500. Just three are graded finer (all MS66+ RD), and we sold the CAC-approved example for \$4,583 in our February 2016 Regency Auction. Worthy of an amazing set - remember its impressive provenance!

1C 1936 DOUBLED DIE OBERSE. TYPE 3. PCGS MS66+ RD
 FS-103. The 3rd Doubled Die Obverse variety for the year, tied with just a single example graded as FINEST at PCGS. The doubling is most evident at IN GOD WE TRUST, but is not as clear as on the FS-101 and FS-102. Wonderfully brilliant, blazing red luster blooms all over. The brightness of the RED is bold in the centers, on the reverse a faint frame of deeper brick/crimson at the rims suggest storage at the end of a roll. A strong glass reveals a few tiny ticks, but they do not detract from the outstanding visual allure.

PCGS 2, NGC 0. The current Collectors Universe value is listed at \$2,500. With NONE FINER, this is a prime candidate for an advanced Registry Set of varieties.

The SINGLE FINEST graded of this scarce Doubled Die Obverse variety. The doubling is most readily evident at LIBERTY and 1939, with traces at Lincoln's ear. Not only is this SUPERB GEM the FINEST of the variety, but it is also among the FINEST for the date as well. Fiery RED mint luster blazes with a bold, original brilliance that belies the pristine surface quality and sharp strike that is seen on both sides.

PCGS 1, NGC 0, CAC 56. (The CAC population includes all 1939 examples in MS67 and MS67+ RD graded). Collectors Universe lists a value of \$5,000 for this Top Pop grade, with the finest to ever sell grading MS66 RD, this is a very important coin for the specialist collector. This is a much more difficult doubled die obverse variety; indeed of the 9 Doubled Die obverse varieties, it is by far the rarest. This MS65 RD is tied for second FINEST graded. Doubling is evident with a glass on the bottom of the 2 in the date, the top of the L in LIBERTY, and to the right of OD W in IN GOD WE TRUST.

Lustrous red surfaces have gold and salmon accents in the fields. The devices are sharply struck up and the surfaces are devoid of all but the most minute ticks. We do note a tiny fleck in the obverse field, which is noted for accuracy and full disclosure, but does not detract from the attractive eye appeal.

PCGS 2, NGC 1. NONE have appeared in auction, but PCGS lists a value of \$5,000 in the current PCGS CoinFacts value. With that, and its RARITY in comparison to the FS-101, we anticipate that a bidding war among advanced variety collectors will see this coin establish a record bid.

1C 1990 NO S. PCGS PR69 RD DCAM
FS-101, not noted on the insert.

The No S variety is found only in Proof sets, and most are in SUPERB grades (to be expected). According to PCGS CoinFacts, "the 1990 No S Proof Lincoln cent was inadvertently struck by a mint state die which was accidentally treated like a proof die. This occurred since the Mint inadvertently shipped a mint state die to the San Francisco Mint without the die containing the S mint mark. This mint state die was then polished, sand blasted, struck several times and remarkably, it was then transformed into a proof die."

Discovered on July 18, 1990 by Jim Gullen, the mint later revealed that 145 examples had been destroyed. It is believed that fewer than 200 survive today in all grades. This is a perfect Proof! Ultra deep mirrors and thickly frosted devices combine for a wonderful DCAM effect.

PCGS 58, NGC 28. The last two examples sold for \$4,320 and one sold in March 2019 for \$4,950. The current PCGS Price Guide value is \$5,750. A really cool and important modern rarity that is listed in the Red Book and avidly sought by many. A key to the entire modern American numismatic series.

Ex. Ron Bozarth Collection as noted on the PCGS insert.

A satiny and fiery RED 09-S Lincoln cent that is as fresh, lustrous, and RED as the day it came off the dies. Well struck for the issue, the details are nicely defined. There are a few minor ticks that limit the grade to the current MS66+ RD grade, but they do not detract from the outstanding eye appeal.

PCGS 210, NGC 64, CAC 49. PCGS has graded 23 examples in MS66+ RD. We sold two recently: one in October 2018 for \$4,950 and one in September 2018 for \$5,053. The current PCGS value is listed at \$4,000. PCGS has graded just 11 coins finer, making this an ideal coin for the collector of GEM RED CAC Lincoln cents, we know this coin will end up in a fantastic collection!

A sharply impressed SUPERB GEM that possesses extraordinary details. A full red example with blazing fiery luster and super satiny surfaces. Evidently, workers at the San Francisco Mint punched the S' mintmark in a horizontal orientation on the dies. This was corrected, but the under type is clearly visible on the production coins accounting for this always popular variety.

PCGS 112, NGC 26, CAC 44. There are 22 graded 66+ RD, with just 2 finer. There is a wide range of prices realized in auction for these, from \$1,800 to \$6,463; the current Collectors Universe value of \$3,750 is about the average for the last 10 examples to sell in auction. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

1C 1923-S PCGS MS65+ RD

The single **FINEST** graded example of this conditionally **VERY RARE** early S-mint Lincoln cent.

Wonderfully preserved surfaces have a satiny lustrous mint red coloration on both sides. The 1923-S cents, even when designated red don't come with a fiery red color; it is usually more subdued as seen here. A few scattered ticks are seen with the aid of a strong glass, but none are visible to the naked eye. Well struck for the date that usually comes with a more blunt strike and softly impressed details. There are also zero flecks or carbon spots to be found anywhere.

PCGS 1, NGC 0. **NONE ARE FINER** at either PCGS or NGC. A really important opportunity for any Lincoln cent collector. This coin has not sold via auction and is currently unpriced by Collector's Universe in this lofty GEM grade. We anticipate that bidding will be intense when the top ranked Registry Set collectors come out in force to bid on this **FINEST GRADED 23-S**. We anticipate very strong bidding when this crosses the block!

It really is amazing how difficult this date is to find in GEM Red grade! Indeed with a mintage of 14,276,000, it is almost shocking to note that there are only 20 graded in MS65 RD.

This MS64+ RD is just on the cusp of being a full MS65. With a strong glass we see the tiny tick that keeps it from a GEM grade. Boldly lustrous copper surfaces show off full original mint color with wonderful almost golden overtones. The surfaces are generally very clean and the details are boldly defined, imparting a great look.

LOT 81

1C 1955 DOUBLED DIE OBVERSE. PCGS MS64+ RD CAC

A gorgeous GEM Red example of this famed Doubled Die issue, one of the most popular coins in the entire Lincoln cent series. Approximately 20,000 were produced when a working die and a working hub were struck together, slightly rotated, creating the dramatic doubling at LIBERTY, IN GOD WE TRUST, and 1955.

Brilliant, fiery red luster glows vividly on both sides. Soft rose, peach, and gold iridescent overtones really pop when rotated in a light giving this beauty a seductive visual allure. A couple of toning flecks and a tiny contact mark or two can be seen with the aid of strong glass, none of which detract from the outstanding eye appeal.

Many of the doubled dies were placed into the cellophane wrapping of cigarette packs in vending machines. At the time, a pack cost 23 cents, so vending machine operators would put the 2 cent change in the pack. Because of this, most survivors remain in Mint State grades, but ones with full, original RED coloration remain quite difficult to find!

PCGS 174, NGC 41, CAC 33. There are 10 in MS64+ RD at PCGS and just 21 finer. The most recent sold in the 2018 ANA auction for \$26,400 and the current PCGS Price Guide value is listed at \$26,500. PCGS MS65 RB CAC
 One of the scarcest Doubled Die varieties in the entire series, following the 1958 and 1969-S; it is also among the most dramatic, with bold doubling in IN GOD WE TRUST and LIBERTY, and some minor doubling in the date.

The present GEM is among the FINEST graded in the RB color classification. It is mostly a fiery, original RED color with a tinge of deeper violet at the lower reverse. Indeed, judging by the

obverse alone, this coin would be in a full RED holder. Sharply struck with boldly defined details, especially the impressive doubling. There are a few minor ticks scattered about the obverse, none of which really distract from the naked eye visual allure. Free from any unsightly carbon flecks anywhere. A major modern Lincoln cent rarity that is missing from many collections.

There are two Doubled Die Obverse varieties, FS-101, and FS-103. The 101 is the more dramatic of the two, and the motto IN GOD WE TRUST and LIBERTY from this coin are used to identify the variety on PCGS CoinFacts.

A SUPERB GEM, a near Top Pop, Wonder coin! Glistening RED adorns deeply resplendent surfaces and keenly denoted design details. Nary a spot or area of discoloration to be found, which sets this coin apart by leaps and bounds over the other four PR66+ examples. It is also why this is the ONLY example to render the approval of CAC and be awarded a sticker! If not for a faint line in the right obverse field, this coin would grade PR67!

Struck in two types, the Satin and Brilliant finish. Although the intention was to have extra brilliant surfaces for the proofs struck post WWI, the personnel at the Mint had long since forgotten how the earlier dies and planchets were prepared to create the deeply mirrored surfaces, so some come with a satiny finish while later pieces have the extra brilliant fields.

PCGS 42 NGC 8 CAC 13. PCGS has graded 5 in PR66+ grade. A PR66+ non CAC example sold at in April of 2014 for \$12,925 and that coin had some unattractive woodgrain toning as well as splotches of gold tone. The current PCGS Price Guide value is \$12,500, and we cannot stress strongly enough what an AMAZING opportunity this coin represents to add one of the finest extant examples of a 1936 Brilliant Proof cent to your collection. 3CN 1886 PCGS PR67+ CAC

Among the top 10 graded at PCGS for the date in the non-CAMEO designation, this SUPERB GEM offers a wonderful look. Brilliant nickel-silver mirrors beam from all over enhancing the sharply struck design elements. Boasting pristine surface quality, both sides are essentially without flaw. Needless to say, the eye appeal is amazing.

PCGS 85, NGC 40, CAC 37. There are only six graded PR67+ and four finer in the designation. The most recent to sell brought \$1,300 in an internet auction (May 2019) and prior to that, you have to go back to June 2017, where one brought a similar price. The current PCGS value is listed at \$1,750. A great example for type or date purposes for any collector looking for an exceptionally high end 1886 for their set.

LOT 101

5C 1866 RAYS PCGS MS66 CAC

A lustrous and totally original GEM example from the first year of issue. Subtle iridescent gold tone with some icy blue mingling about attests to the originality. Sharply struck from a shattered obverse die. Essentially without flaw, this GEM has outstanding eye appeal.

This is the first year of the 5C nickel of only a two year type featuring the rays on the reverse. Nickel is a very hard metal to strike coins and the dies were constantly cracking. Part way through 1867 the rays were removed from the reverse design in an effort to extend die life.

PCGS 52, NGC 22, CAC 9. The most recent PCGS/CAC example sold for \$4,465 in a June 2017 Regency Auction and the current PCGS Price Guide value is listed at \$3,450. With just five examples graded finer, this high end coin is worthy of a strong bid from the type or date collector.

PCGS# 3790 | ESTIMATE: \$3,000+

LOT 102

5C 1868 PCGS MS66 CAC

A bold, satiny luster beams with a full GEM brilliance throughout with radiating cartwheels. A tinge of flash can be seen as you rotate the coin in the light, accenting a delicate gold. Sharply struck devices stand out against the smooth surfaces, which are free of any distracting marks or lines. The visual effect is outstanding.

PCGS 40, NGC 33, CAC 13. RARE any finer, with just 9 graded higher. The last PCGS/CAC coin sold for \$1,440 in June 2018 and the current PCGS Price Guide value is listed at \$1,400. These just seem TOO CHEAP at today's levels, the prospect of building a set is a wonderful challenge.

5C 1873 CLOSED 3. PCGS MS64 CAC

A strong luster radiates from this original near-GEM Shield nickel. Brilliant nickel-silver with a delicate blush of steely ice blue and champagne color. Sharply struck on both sides, the obverse die was in a shattered state with multiple cracks seen all over which lend character and charm to the wonderful eye appeal.

PCGS 41, NGC 24, CAC 13. The last two PCGS MS64 CAC examples sold in December 2018 for \$1,080 and the current PCGS Price Guide value is \$1,500. A neat type or date coin for anyone working on an eye appealing yet budget minded set.

5C 1876 PCGS PR67 DCAM

We have seen DCAM Shield nickels where we have scratched our heads looking for the DCAM. There is no question as to this SUPERB GEM's DCAM status!

Exceptionally deep mirrors beam from all over. The fields offer the utmost in bold clarity and pristine smoothness. Only a couple of microscopic flecks are noted under the aid of a strong glass. Lovingly cared for since it was struck in our centennial year, this well produced SUPERB GEM offers razor sharp devices that are full of a thick, frosty texture that contrasts seductively against the mirrors. The eye appeal is something truly special!

PCGS 2, NGC 0. PCGS has never graded one finer. The other example sold in April 2016 (a weaker market) for \$7,050 and the current PCGS Price Guide value is listed at \$9,250. As one of the two FINEST graded at PCGS, we anticipate very active bidding from the collectors looking at building the FINEST of Registry Sets!

LOT 111

5C 1884 PCGS MS66+ CAC

What a gorgeous 1884 nickel! Essentially SUPERB in grade, it is beyond superb in eye appeal!

Highly lustrous surfaces display a magnificent melange of pastel iridescent toning. Shades of icy blue, rosy-apricot, champagne-peach, and vibrant nickel-silver blend together on the smooth, Premium Quality surfaces. A very cool bisecting die crack is seen on the reverse, a feature we don't recall seeing before.

PCGS 76, NGC 21, CAC 25. There are 41 in MS66+ (a number we really feel is inflated with the same coin being resubmitted multiple times in hopes of attaining an MS67 grade). We sold the most recent example in our June 2019 Regency Auction for \$4,935. The current PCGS Price Guide value is \$5,000. With just five graded finer, and NONE CAC approved, this is about as nice as any high end Liberty nickel collector can hope to obtain!

A lovely and high end GEM example of this final date. Not only is it the first nickel struck in San Francisco, and the mintage was a small 238,000, making this a key issue. Boldly lustrous throughout, the surfaces show a pleasing dove-nickel with pale rose and gold accents that pop when viewed in a light. Nicely struck up devices show full definition to the details. Only a strong glass reveals any tiny trace of contact, but it does not detract from the overall outstanding eye appeal.

PCGS 51, NGC 9. The current PCGS Price Guide value is \$5,000.

The most recent auction coin sold for \$7,200 and prior to that, these were selling in the \$3,360 to \$3,850. Going back to 2016, the average APR for a 66 is \$4,032. Just six coins are graded finer, all 66+s, none of which have ever sold in auction. This wonderful GEM is worthy of a very high end set. We anticipate strong bidding for this one!

THE MERIDIAN COLLECTION OF PROOF LIBERTY NICKELS

Legend Rare Coin Auctions is proud to offer the Meridian Collection of Proof Liberty Head Nickels.

The consignor has been an avid coin collector for over fifty years and a proficient numismatist who has assembled several extensive collections consigned to various auctions over the last twenty years, including several previous Legend Regency Auctions. He decided several years ago to put together smaller sets of Proof coinage of various unappreciated series of coins. The coins placed into these collections have been carefully selected for the strong eye appeal and high grades. One of these sets is the Meridian Collection of Proof Liberty

Nickels. The majority of this set consists of Gem Cameo examples. While not all of the coins were the highest graded, many are among the finest certified, and each was specifically collected for its visual effect. The quality of the coins is acknowledged by the CAC stickers on almost all of them.

The collector is moving on to another area of numismatics, and as he goes on to other series of coins, he felt that this is a good time to return these Gems to the collecting community for other collectors to enjoy as much as he did. He wishes everyone the best of luck in bidding on these great Proof Liberty nickels.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

ULTRA black and white contrast. The depth of the mirrors is like looking at a midnight, starless sky. Additionally, there is tremendous clarity and cleanliness. The question comes to mind, what does PCGS want in order for a coin to merit a Deep Cameo designation, because this piece is as close as you can get. Eye popping eye appeal is credited not only to the amazing fields but also to the depth and breadth of the mint frost on the devices. If not for a faint hairline on the cheek, which requires powerful magnification to even see, this coin would be a candidate for a PR68 holder.

BOLD DIE CLASH

What a cool coin! We recently submitted this coin to PCGS because the die clashes were so prominent that we wanted them on the insert. Prior to this coin being struck, the dies came together without a planchet, thus clashing the dies. Traces of the reverse buffalo can be seen surrounding the Indian's portrait, but it is the mirror image of E PLURIBUS UNUM, which is seen right below the Indian's chin, that makes it look like he has quite the scruffy beard.

Despite the clashing, the devices are very nicely rendered by an exacting blow from the dies. Every detail is nicely formed and stands out with a bold effect. Brilliantly lustrous surfaces show off a wonderful nickel silver coloration that is quite pleasing to the eye. We note a minor spot on the reverse which may be the only thing that precluded CAC approval of this GEM.

PCGS 37, NGC 17. The current PCGS Price Guide value lists a \$12,500 value in MS65. With just five coins graded finer, this impressive GEM will see substantial bidding from anyone looking to put together a really cool set of Buffalo nickels. Keep in mind that a 65+ is going to cost around \$25,000 (if you can find one), and the lone MS66 is impounded in a major collection, and would likely bring a record price. Additionally, the swirling mint bloom and luster graced by blond overtones adds to the appeal. One or two tiny marks are noted but only with a magnifying glass.

PCGS 67, NGC 40, CAC 11. Just 10 are graded 65+ and just a trio of MS66s are graded higher. This was the most recent to sell, bringing \$17,625 in our July 2018 Regency Auction. A PCGS/CAC MS66 sold in June 2013 for \$67,563. This is a great opportunity to upgrade your set with one of the FINEST examples of this scarce date.

5C 1926-S PCGS MS65+ CAC

Legend Rare Coin Auctions is proud to have been chosen to auction one of the greatest Buffalo Nickels that exists -a SUPERB GEM 1926-S PCGS MS65+ CAC! Tied for FINEST graded at PCGS, this is a trophy coin needed by anyone building the #1 PCGS Registry Set! But it is more than that, the technical quality is exceptional, we truly believe that if this was a common date, it probably would have been designated an MS66! It is really that high end!

Outstanding surfaces rank among the best we have ever seen. We used a strong glass and really looked around; all we found was a tiny tick on the reverse. There really are NO imperfections here. A bold and glowing luster can be seen from feet away. Both sides enjoy some of Mother Nature' best work-- there is a mix of nickel/lilac/gold colors spread all over. Every single feature is fully struck and is really "knife" sharp (something we never see on a 26-S, a date that is notoriously weak in strike). The details actually stand out. You do NOT need a glass to see the full split on the tail. Again, we never see 1926-S in this amazing state of preservation. The eye appeal is mind boggling!

PCGS 17, NGC 10, CAC 4. PCGS has graded only 3 in MS65+. None of these have ever been sold via auction. The current Collectors Universe Value is \$230,000. All of the others MS65's are locked up in major collections. This incredible coin may represent the last chance for anyone building a major set to acquire a true GEM. We expect strong bidding here. Good luck!

WOW! This coin has amazing eye appeal and is at the summit of the PCGS Population. Tied for FINEST GRADED, this magnificent SUPERB GEM oozes with exceptional eye appeal.

Highly lustrous with a vivacious satin frost that really glows from below a dusting of sheer icy-blue, soft apricot-rose, and vibrant honey gold that dominate the smooth, clean surfaces on both sides. The boldly struck devices add depth and dimension to the eye appeal.

PCGS 4, NGC 1. There are NONE FINER. Two sold in the recent ANA auction, with one bringing \$24,000! The current PCGS Price Guide value is listed at \$25,000 and if you demand only the highest graded examples for your set, don't let this stunner pass you by! Bidding will be spirited!

Tied for second FINEST at PCGS, bested by just two coins on the Population Report. Wonderfully preserved and lovingly cared for since it came off the dies.

An icy blue iridescence is suffused over the intensely lustrous surfaces. Sharply struck devices stand out on either side, and there are no serious marks or flecks of any kind to be seen. Needless to say the eye appeal is very high end.

PCGS 206, NGC 38, CAC 45. There are 28 in MS67+ at PCGS. The most recent of five CAC-approved examples sold in auction brought \$4,560 in April 2018; but the average APR is \$5,518. Just two coins are graded finer, both MS68; none of which have sold in a decade - the last one to sell brought \$34,500 in April 2009. An important opportunity for the Registry Set collector. Good luck!

We have never seen a 35-D nickel that looks like this! WOW! This has got to be the most beautiful example of this conditionally rare late date Buffalo nickel that can be imagined. Everything about it is SUPERB!

Every detail on both sides look like they were carved from a sheet of fresh smooth ice! The luster is amazing and it really makes the stunning toned surfaces stand out dramatically. This is one of the more eye-poppingly toned examples we have seen, boasting gold, pink, and sky-blue shades can all be seen in varying degrees as the coin is rotated in a light.

PCGS 16, NGC 6, CAC 3. The toning and eye appeal surpass that of the Angel Dees coin we sold in December 2016 for \$10,281 (which was not CAC). The only CAC-approved example sold in August 2012 - even years may as well be forever ago! Clearly these do not appear with any kind of frequency and there is just a single 67+ graded finer, which has never sold in auction. This stunning coin will bring a very strong price, and if it broke the record of \$22,540 set back in August 2006, we would not be shocked. Good luck!

A SUPERB GEM, tied for second finest graded at PCGS, and boasting the coveted CAC bean, this is among the best of the best (note none of the MS68s have ever received CAC approval). Icy nickel-silver luster boldly radiates all over accenting the sharply struck design elements on both sides. The eye appeal is exceptionally high end and it is hard to imagine a better example.

PCGS 199, NGC 141, CAC 48. There are 31 graded MS67+ and just 2 in MS68 finer at PCGS. The most recent example to sell realized \$3,300 in the 2019 FUN auction, and prior to that, one sold for \$3,643

in April 2017. The current PCGS value is listed at \$4,000 and keep in mind that if one of the MS68s were to ever sell in auction, it would likely take a bid of \$20,000 or more to bring it home, making this a great coin for the Registry Set collector.

An amazing SUPERB GEM survivor, one of the finest in the entire series, certainly for the date. Well preserved, the surfaces are pristine and as nice today as the day it came off the dies. Intensely lustrous surfaces enliven a lovely pastel blue patination. The devices are boldly struck up from an expertly executed blow from the dies. The eye appeal is excellent.

PCGS 17, NGC 12. We had the pleasure of selling the two most recent examples; one in October 2017 for \$11,750 and the other

was the Angel Dees coin, which sold for \$12,338. The current PCGS Price Guide value is listed at \$13,500. There are two MS68+s graded finer, one of which is in the 2019 ANA auction, but had not hammered at the time of writing this description. Worthy of a very high end set and note that no MS68 has ever been awarded a CAC bean, so if you are waiting for one, that wait is futile!

5C 1937-D 3 LEGGED. PCGS MS64

Quite CHOICE! We are not sure why this coin did not sticker at CAC. The eye appeal is wonderful. A frosty mint luster accents the soft pastel iridescent hues when viewed in a light. Well struck for the issue, the details are essentially full, including the rough textured surfaces.

One of the most famous coins in existence, even non-numismatists have heard about the 3-Legged Buffalo nickel. This

variety was created when a mint employee over zealously filed down some clash marks on this reverse die, eliminating one of the front legs. This near-GEM is about as high a grade as most collectors can obtain.

PCGS 202, NGC 226. The last one of these in a PCGS holder to sell brought \$5,416 in a June 2018 auction. Prior to that, one sold for \$8,400 and the current PCGS Price Guide value is listed at \$7,000. Quite scarce any finer, this very Choice example will delight any collector looking for an example of this key issue.

5C 1937-D 3 LEGGED. PCGS MS65 CAC

One of the famous KEY 20th century issues, the 3 Legged 1937-D is known outside of numismatic circles, and many people can remember searching their pocket change for an example. GEMS like the one offered here are few and far between, and while we have had the pleasure of selling two other PCGS MS65s this year, neither had the OUTSTANDING eye appeal of the presently offered example.

An ember-like, satiny luster provides a strong brilliance that back lights the gorgeous, pastel iridescent toning. Shades of rose, teal, gold, and lavender grace both sides. The strike is bold, and the surfaces are exceptionally clean and free of any post-minting flaws. The eye appeal is exquisite!

This popular variety was created when an employee of the Denver Mint discovered that the dies were seriously clashed. In an effort to remove the clash marks, the inexperienced worker took an emery board and without realizing removed not just the marks, but also removed one of the buffalo's legs. This popular variety has become so beloved by collectors that it is now treated as a regular issue with a listing in the Guide Book and in old collector albums.

PCGS 54, NGC 56, CAC 33. The last PCGS MS65 CAC coin sold in auction in the 2016 ANA auction, a coin that realized \$25,850. The current PCGS Price Guide value is \$26,500 and this KEY issue is quite RARE any finer; less than two dozen examples have graded finer at PCGS - precious few for collectors looking to add a high grade example for their set. This makes a beautifully toned MS65 a great choice for most advanced collectors, and we suspect there will be strong bidding to take this one home!

OUTSTANDING! Really, this is one of the prettiest, most originally toned SUPERB GEM 1914 Matte Proof nickels we have had the honor of offering! The technical and visual qualities of this beauty are indeed superior to the vast majority of any grade we have seen.

The surfaces are exceptionally clean, and have a bold sandblast luster. Wonderfully colorful with pastel iridescent tones on the obverse and a richer orange-peach with accents of magenta and teal mixed in for good measure. The strike is razor sharp, and the devices look like they were carefully carved by hand. All that is left to say is WOW!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

One of the FINEST examples of this early Jefferson Doubled Die Reverse variety, the present example has a bold visual appeal that cannot be beat!

The surfaces are fresh and lustrous nickel-silver-gray with absolutely stunning toning. Light champagne, gold, lilac, peach, and rose hues radiate with the boldness of the mint luster. All the devices are fully struck and exceptionally bold.

A rarity in the Jefferson nickel series, especially so well preserved. The Doubled Monticello is a misnomer, it is a true Doubled Die Reverse, with FIVE CENTS also boldly doubled.

PCGS 3, NGC 0. The only one to sell realized over \$20,000 in February 2016, in a weaker market than today. The current PCGS Price Guide value is listed at \$26,500. There are NONE FINER, making this a great candidate for inclusion in a world class Registry Set of Jefferson nickels.

WOW and DOUBLE WOW! TIED FOR FINEST GRADED! Glistening cartwheel luster flows over immaculate surfaces enhanced by halcyon toning with a trace of soft peach hues around the border. Under high magnification, a couple of tiny imperfections are noted - a small contact mark on Jefferson's head and a fleck of dirt on his cheek. A prize for the collector looking for the CREME DE LA CREME!

Struck from two different die pairs. One (1938) has the more indistinct, wavy steps. On the second reverse, the steps were strengthened and more fully delineated on the reverse of 1940. Neither is scarcer than the other, however, it seems to us it would be tougher to get the Full Steps designation on the reverse of 1938 because the dies were not cut with the same clarity as the reverse of 1940.

PCGS 8, NGC 5. The current Collectors Universe value is listed at \$7,500 and there are just two auction records, one in the 2019 ANA auction at \$2,640 and the other selling in March of 2016 for \$6,463. Not many opportunities come along to obtain an example of this exceedingly tough issue, so don't miss the boat. The Philadelphia mint churned out nearly 176 million nickels in 1963, with evidently little care for striking quality. So many of these are poorly struck that examples with full steps on the reverse are very rare today. Indeed, after 32+ years of grading just 41 examples have graded in MS66 or finer at PCGS. The present GEM has a bold satiny mint luster and a delicate iridescent patina over the original nickel-silver surfaces. Every detail of Monticello, including all six steps are fully rendered by an exacting blow from the dies. There are no more than one or two very minor, trivial ticks that would keep this coin from an even higher grade.

PCGS 4, NGC 0. None have ever sold in auction, but PCGS CoinFacts estimates a value of \$2,000 in this lofty grade. There is just a single example graded finer, which too has never sold in auction. H10C 1800 LIBEKTY. PCGS MS65 CAC

What an AMAZING Draped Bust half dime! Legend Rare Coin Auctions is proud to offer this stunning, beautifully toned GEM example that is fresh to the market and extremely high end for the grade.

A condition census LM-3, which is rated as Rarity-4, the LIBEKTY variety was created when the engraver utilized a broken R punch with the loop in the R open, creating a letter similar to a K.

Nearly fully struck, with razor sharp definition in most places, there is just a touch of weakness on the eagle's right wing and the right most clouds above the wing. A bold, satiny mint luster rolls unimpeded on both sides, which is especially vivid towards the peripheries. A touch of gold and emerald at the rims blends to an even cobalt and teal patina that is deep, but becomes quite vivacious when rotated in a light. Light clash marks are seen with the aid of a powerful glass as are a few tiny stray ticks noted for the sake of full disclosure, but are irrelevant in terms of the technical and aesthetic quality, which this one possesses in spades! Truly a gorgeous example!

Housed in an old green tag holder, the LIBEKTY feature is not designated on the holder, and has the generic PCGS # 4264. We cannot trace a modern provenance for this coin, thus we believe that the last time this GEM sold in auction was when it was "raw." Housed in a "Generation 3.1" old green tag holder, which was in use from March 1993 to September 1998. The Norweb Collection, Part 1, October 1987 had two GEM examples, and this is NOT one of them. Nor does it match any of the other high grade examples sold in that era, including the NGC MS66 in the 1990 Boys Town Sale.

For the PCGS# 4264 as noted on the insert: PCGS 4, NGC 7, CAC 1; just two are graded finer, a 66 and a 68. PCGS has graded 1 LIBEKTY in 65, with three finer. The current PCGS Price Guide value is listed at \$55,500 and the last time the MS65 sold was in the 2008 FUN auction for \$80,500. The Norweb:309 coin, graded MS65+ CAC, sold in the 2015 ANA for \$47,000 (this coin is much more evenly toned and eye appealing) and we think it should sell for more. This is a real prize for the advanced type, date, or variety collector. A WORLD CLASS GEM for a world class collection. Who knows when the opportunity to acquire another one will present itself!

 Ranking among the top seven
 graded at PCGS, the present
 MS67 1837 half dime is an
 intriguingly appealing SUPERB
 GEM example of this first year of
 issue Seated Liberty half dime,
 featuring Christian Gobrecht's
 classic No Stars design.

Brilliant, frosty mint luster has a rich, satiny finish on both sides, which are mostly untuned with just the faintest pale golden-tan that accents the surfaces and adds to the substantial visual

allure. Sharply struck up from broken dies, substantial die cracks are seen on both the obverse and reverse. A microfleck or two can be seen with a strong glass on the reverse, but there are no visually distracting lines, marks, or anything else that would affect the bold eye appeal.

PCGS 5, NGC 4, CAC 6. The three most recent PCGS graded auction appearances were for the same coin, which most recently sold in our September 2018 Regency Auction for \$15,863; prior to that the Pogue coin sold for \$28,200. The current PCGS Price Guide value is listed at \$22,500. Just two coins are graded finer, and we sold one, a PCGS MS67+ CAC for \$36,425 in our May 2019 Regency Auction. This is a gorgeous example for this transitional issue and a great type coin for the advanced collector; we expect very intense bidding for this one when it crosses the block.

Absolutely gorgeous! We love the look of this PQ GEM! Brilliant, satiny luster boldly blooms under a rich teal, aqua, cobalt, and amber-magenta patina giving the smooth clean surfaces a vivid look. Sharply struck up, this magnificent coin is wonderfully preserved and we are unsure why CAC did not bean this visually seductive half dime.

PCGS 15, NGC 13. All the recent PCGS-graded examples were CAC-approved, realizing between \$1,763 and \$2,350. The most recent MS66 to sell was an NGC-graded coin without CAC approval (July 2018) and sold for \$2,640. The current PCGS value is listed at \$2,250. This coin sold way back in 2001 - and is now making its first appearance in 18 years! Do not overlook this coin because it is not CAC, the eye appeal is SUPERB!

A delightful little beauty. Shimmering frost and mint bloom grace immaculate surfaces, even under magnification. Interesting and quite heavy die clashing is noted on both obverse and reverse. The kaleidoscope of color radiates in shades of electric blue, peach, magenta and gold serves only to bolster the aesthetic appeal of this SUPERB GEM.

PCGS 42, NGC 25, CAC 44. While we sold the most recent example for \$2,468 in our June 2019 Regency Auction, these were consistently selling in the \$1,500-\$2,000 range. Very rare finer, with just 24 graded higher at PCGS.

What a great and underrated RARITY! Legend Auctions is honored to have been consigned this remarkable ULTRA high end GEM. It is SUPER HIGH END! Keep in mind that at one time it was an NGC PR67 CAM. For CAC to GOLD sticker it, you know the coin is truly special.

We rarely have ever seen such ultra deep mirrors or contrast like this one on any 1856 coin so dramatic; they have amazing clarity and nearly blinding reflection. Seeing is believing (and blinding)! There are some Mint made dies lines, but overall, the fields are super clean. A very light hint of ORIGINAL lilac toning covers parts of both sides. We bought it from a deal where it had been with the same family since it left the Mint! It came out of the middle of a cellophane wrapper. Miss Liberty and the details are pinpoint sharp in strike and have thick frost. The eye appeal is spectacular!

The estimated mintage figures are less than 20. PCGS 4, NGC 0, CAC 3. We think this represents no more than three coins total, and perhaps just this one and one other. This SUPERB GEM last sold for a record price of \$18,800 in our September 2018 Regency Auction. If you are looking for an example of a truly RARE and underrated early Proof, take a look at this one and bid liberally!

Ex Eliasberg.

This is a borderline-GEM example of this scarce die marriage, and one of the FINEST KNOWN examples, well up in the condition census for the JR-4 Large 8 variety.

Bold, pearly satin luster graces both sides, with flashes of semi-reflective accents when rotated in a light. Brilliant silver blends with pale gold and delicate tangerine that is dusted around the peripheral details on the obverse while the reverse has a richer blue and somewhat deeper gold hues. Mostly well struck there is touch of weakness on the stars to the left and the central reverse, but overall the strike is sharper on this coin than most seen. Struck from an intermediate state of the obverse die, a crack runs from TY in LIBERTY to Liberty's nose. Also struck from clashed dies, but the die break does not continue from the nose back to the rim at about 3:00 as seen on the Ed Price-Brent Pogue coin. The eye appeal is exceptional, equal to the importance of the Eliasberg provenance. Ex lot 1045 from the May 1996 Bowers and Merena / Stack's sale of the Louis Eliasberg Collection. No prior pedigree information is given, thus it is likely from the Clapp Estate, which in 1942 was purchased by Eliasberg en bloc, forming the core of his legendary collection.

PCGS 4, NGC 4 (as a date), CAC 4. The most recent PCGS MS64 to sell in auction was the Ed Price- D. Brent Pogue example that sold for \$82,250 in May 2015. This attractive and totally original beauty is a coin worthy of placement in any world class collection of early dimes, type coins, or any holding of really cool coins. Good luck!

Legend Rare Coin Auctions is proud to have been consigned this absolutely SUPERB GEM 1838 dime. Sitting alone at the very TOP OF THE POP, this coin has it all and is the premier example for anyone building the FINEST of sets.

Incredible mint frost sets the satiny surfaces ablaze with a billowing, original luster. Brilliant and mostly untuned, silver takes on the most subtle of pearly iridescent color. Sharply struck on both sides, the obverse die is bisected by an advanced die crack, starting at the rim at 11:00, just to the left of star 7, crossing from Liberty's shoulder to the right edge of the shield, then making almost a 100 degree angle, before extending to the rim just to the bottom of Liberty's foot. The eye appeal is simply stunning as this AMAZING example looks just as fresh today as it did when it came off the dies 181 years ago.

PCGS 3, NGC 8, CAC 2. This is the ONLY 67+ graded at PCGS and there are none finer. The PCGS Price Guide value is \$27,500 in MS67 and unpriced in MS67+. 10C 1850 PCGS PR66+ CAC

Legend Rare Coin Auctions is proud to offer this AMAZING, major Seated Liberty dime rarity. Missing from most world class collections, the rarity cannot be over sold. Not only is it exceptionally rare, but the eye appeal and quality is simply STUNNING.

Everything about this SUPERB GEM is a delight to behold! The mirrors are deep and watery with a strong bold reflection. The flashiness of the fields glitter from below a layer of deep, rich, totally original polychromatic toning. Shades of cobalt, teal, violet, and sunset orange tone comes out when you rotate the exquisite fields in a light. Every detail is crisply and fully rendered with razor sharp definition.

The rarity is best summed up by David Akers in his write up of lot 605 in the October 1997 auction of the John J. Pittman

Collection, where he stated enumerated the great dime collections sold in the 1980s and 1990s that contained, and those that lacked an example of this extreme rarity. The Norweb, Eliasberg, Garrett, James A. Stack, and Harold Bareford all lacked an example, while only the Floyd Starr and Allen Lovejoy collections had one.

This coin is the former Kaufman coin that first appeared in the 2008 FUN auction as part of the Phil Kaufman Collection, where it was graded NGC PR67*, and it sold for \$80,500.

PCGS 2, NGC 0, CAC 1. This is NOT the one that sold in October 2014. Remember that in 2008 this coin sold for \$80,500. This is the ONLY CAC approved 1850 Proof dime graded higher than PR63, so if you demand only CAC and GEM quality, this is your ONLY opportunity to acquire an example of this major rarity, which is by far rarer than the seven figure 1894-S dime. By comparison, this coins is downright cheap! Good luck!

10C 1945-S MICRO S. PCGS MS67+ FB CAC

A totally original and high end SUPERB GEM tied for second FINEST graded by PCGS in the Full Band designation. A popular and scarce variety, which is extremely rare in this lofty state of preservation.

Clearly this lustrous beauty sat for ages in an old collector envelope, you can see the kraft paper's texture imprinted in the splendid patination. Rose-gold and slate-blue toning is accented by brilliant, satiny. The eye appeal is exceptional!

LOT 221

10C 1952-S PCGS MS68 FB

A beautifully toned, pristine 1952-S dime! Tied for FINEST graded, and even the most casual glance reveals the stunning technical and aesthetic qualities. Sharply struck, ultra clean, and satiny lustrous, with a dusting of totally original patina, likely from long term storage in a mint set. The pastel tone is quite light, delicate, and visually very appealing.

PCGS 6, NGC 2. NONE FINER. Worthy of placement in one of the FINEST Roosevelt dime sets. The last two examples sold in November 2016 and December 2015 for \$2,820 and the current PCGS value is listed at

LOT 222

10C 1968 NO S. PCGS PR68+

One of the FINEST in the non-CAM designations and a very pretty GEM that is virtually PERFECT in every way. There is nothing to be found anywhere with a strong glass. It is a MAJOR modern rarity.

The 1968 NO S. Proof Dime is one of the RAREST modern mint issues. 1968 saw the first year of Proofs struck at the San Francisco mint, and a very limited, but unknown number of Proof dimes made it into sets without the "S" mint mark.

As expected for a recent proof, the surfaces are flawless; the mirrors deep, clearly reflective, and beaming. The obverse devices have a moderate amount of frost, but not enough for PCGS to designate it a CAM. Regardless, the eye appeal is stupendous!

PCGS 2, NGC 0. Neither has ever sold in auction. The current Collectors Universe value is listed at \$27,500. We sold a PR68 CAM in our September 2018 Regency Auction for \$39,950 and the are NO DCAMs graded. A real prize for any collector of modern dimes.

20C 1875-S/5 FS-302. PCGS
MS66+

A highly lustrous and wonderfully preserved example of this popular variety. For the variety, this is the **FINEST** seen at PCGS.

A rich satin frost blooms all over in the fields accenting the crisply struck design features. Free of any distracting marks, this GEM has a bright silver brilliance and bold visual allure.

The FS-301 is a double “error” variety, which includes the

mispunched date on the obverse and the repunching of the mint mark. At the time the obverse die was being produced, the date logotype dropped onto the die in the incorrect position (you can see evidence of this as a raised “bar” in the denticles below the 7 of the date. The repunching of the mintmark is clear. This is a fairly common variety, which commands a slight premium over the regular 1875-S.

For the date: PCGS 11, NGC 2. The only PCGS MS66+s were CAC approved, which sold in the \$9,000-\$10,000 range. Collector’s Universe does not list a value for the variety in this grade, but in MS66, it is listed at \$8,000. Worthy of an advanced collection and a premium bid. Good luck!

20C 1875-S PCGS MS67

This is a wonderful and high end example of this odd denomination. A real **SUPERB** GEM, clearly this coin has been lovingly cared for over the last 150 years!

Both sides are boldly lustrous with a lovely, original, pearly hue that is dusted delicately over smooth fields and sharply struck devices. A band of gold, tan, olive, and russet hues graces areas of the periphery imparting a classic, old time collection look. While there is a touch

of weakness, as usually seen on the reverse, the definition is much stronger than usually seen on examples of this date. The surfaces are of impeccable quality, and the eye appeal is spectacular for the type!

PCGS 6, NGC 8. The last one to sell realized \$19,200 in October 2018 and prior to that, one sold in September 2018 for \$33,600. The current PCGS value is listed at \$25,000. A single MS68 is graded finer at PCGS and was most recently sold for \$52,875. This coin is one of the **FINEST** and worthy of a **SUPERB** type set.

LOT 225

25C 1805 PCGS MS62+

A condition census level B-3 quarter; which like all Draped Bust quarters, is quite RARE in Mint State. This marvelous CHOICE example is worthy of any well selected type set, or collection of early quarters.

A rich, satiny mint luster blooms with a bold brilliance on both sides, accenting a delightful blush of delicate lilac, rose, and pearlescent patina which graces the obverse surfaces. A well executed strike shows essentially fully defined design elements. Any of the minor weakness in strike is likely a result of the advanced state of the dies, showing multiple reverse die cracks and heavy clashing. A few hidden

lines are observed with the assistance of a powerful glass, but none detract from the wonderful visual allure.

The quarter denomination was not struck with regularity in the early days of the mint. Though silver coinage began in 1794, the quarter was first struck two years later. There would then be an eight year break before they would be struck again. After 1807, the denomination was struck with interruptions from 1815 to 1831. After that they were struck annually. Demand from bullion depositors was limited, as the Spanish colonial 2 Reales were readily available and accepted in early commerce to fill the void.

PCGS 2, NGC 0. This coin was last sold in June 2017 as part of the Blue Moon Collection, realizing \$18,213. That collection was assembled mostly in the 1970s and 1980s, but the prior provenance was unrecorded in the catalog. For the enterprising numismatic researcher, tracing the pedigree would be an interesting project. The current PCGS Price Guide value is listed at \$19,500. RARE any finer, there are 20 coins graded finer in all grades from MS63 to MS65. This is indeed a great type coin, worthy of a wonderful collection.

LOT 226

25C 1824/2 PCGS AU55

Ranking near the middle of the Rea-Koenings-Haroutunian Condition Census, this AU55 1824/2 quarter is high grade for the date. This is # 15 on that listing and boasts the Norweb, Charton Meyer, Dennis Loring provenance. Only this one die pair, B-1 was used to strike the 16,000 that are thought to have been minted. Steve Tompkins suggests that the 16,000 quarters listed on Mint warrant # 935, were delivered on December 31, 1823.

The present CHOICE AU is originally from the Norweb Collection, where in March 1988 it was described in lot 1539 as "AU-58. Light lilac and silver gray fields. Very attractive overall." To that we will say, in the 31 years since it was offered in that sale, it retains the same even patination and lovely eye appeal. Well struck throughout with just a trace of wear on the highest points and the fields. A strong glass reveals a few toning spots which identify it as the Norweb coin and a few ancient friction lines in the field account for the AU55 grade. We really are not sure why CAC chose not to endorse this one.

PCGS 5, NGC 4. The only PCGS AU55 to ever sell in auction was the CAC-endorsed example that sold in our May 2017 Regency Auction for \$25,850. PCGS has graded just four coins finer, one each in AU58, MS61, MS62, and MS64--making this an excellent choice for any Capped Bust quarter specialist. Good luck!

25C 1825/4/2 BROWNING-2. PCGS AU53 CAC

Pleasingly original, this B-2 has hints of retained luster in the protected areas of the design. Light lilac, olive, and russet tan blend over rich silver-gray patina. Boldly struck devices show only a touch of high point friction.

The 1825 quarters have long caused confusion among collectors. At various times, there have been listings of 1825/2, 1825/3, and 1825/4. The three die marriages, all of which are overdates, utilized two obverse dies. Research reveals that the two obverse dies were likely left over from 1822, then repunched in 1824, then again in 1825 when they were

actually used. The B-2 is the more common of the three varieties, yet, all are quite difficult to find in such wonderful quality and eye appeal.

PCGS 9, NGC 7, CAC 1. This marvelous coin last sold in June 2017 for \$2,530 and the current PCGS Price Guide value is listed at \$3,900. Difficult to find any finer, this wonderful example is the PERFECT collector grade coin for anyone who desires a high end for the grade, fully CHOICE, CAC-approved AU example. Demand will be strong.

25C 1853 ARROWS AND RAYS.

PCGS MS66

What a fantastic Arrows and Rays quarter! You know this one has got to be special! Ex James Swan, Oliver Jung, Brent Pogue, and again to Oliver Jung! Stunning everything!

Condition Census quality, this is among the very FINEST known of this one year type. Bold mint luster has a brilliant, glimmering flash under a layer of iridescent olive, tan, and gold tones that accent the superb underlying silver surfaces. Sharply struck up, its approval - it is truly an amazing example.

every detail is crisp, and razor sharp. Essentially pristine surfaces show just a few tiny die lines and a few other microscopic ticks that can be seen only with the aid of a very powerful loupe. The eye appeal is amazing in every way, we are not exactly sure what CAC saw that precludes

Placement of the arrows at the date and rays around the eagle came after the Mint Act of 1853, which reduced the content of silver in the half dime through half dollar. One of the results of the flood of gold coming out of California was the ratio of gold to silver in circulation went out of balance, raising the price of silver to a point where the silver content was worth more than face value. Many older silver coins were exported and melted for a profit, creating a shortage in commercial channels. The 1853 Mint Act relieved this problem, but created another. The rays on the reverse proved shortened the life of the dies, and after 15 million were produced, the design was changed, retaining the arrows at the date, but removing the rays, creating a one year only type. The need in commerce for these coins resulted in a very large mintage, but low survival rate. This is one of the very finest known.

PCGS 10, NGC 7. PCGS has graded just 2 finer. The Gardner coin, which is a CAC approved example with a very similar look, sold for \$36,425 in our May 2018 Regency Auction. Worthy of a very strong bid from anyone needing this one year type for their set, and remember, it graced three great type sets in the past, most recently THE TYPE SET, formed by Oliver Jung. Good luck!

Icy smooth, deeply mirrored fields offer exceptional clarity! We have not seen such a visually impressive beauty in ages! The mirrors contrast brilliantly against the frosty, razor sharp design elements, imparting a dramatic

cameo contrast that is exceptionally high end and bold. Framed in a dappled halo of amber, gold and variegated blues. The central areas are brilliant silver and untuned. All together, the mirrors, toning, strike, contrast all combine to create a masterpiece of Proof Seated coinage! We love this SUPERB GEM!

 The famed Dr. Steven Duckor Collection coin, as noted on the insert.

Truly a premium quality and very high end GEM example of this early branch mint Barber quarter. While the mintage of 964,079 is comparable to other dates, precious few were saved from the ravages of circulation and commerce. The Population in MS65 and finer is quite small, there are 25 graded in that range with just four PCGS MS66s graded.

A fully Prooflike example with bold, flashy mirrors that sparkle in the light, giving this GEM a nice CAMEO like contrast on both sides. Delicate golden tone mingles with silver/white iridescence and olive/teal accents. Clearly very well struck from an early state from freshly polished dies with none of the typical weakness seen.

Struck from the Type 2 reverse hub, which according to extensive research is about 3 times as rare overall to the Type 1.

25C 1916 STANDING LIBERTY. PCGS MS67 FH

An outstanding 1916 Standing Liberty quarter. Truly one of the absolute **FINEST** **KNOWN** examples of this classic 20th century rarity. Not only is this coin of exceptional technical quality, but the visual allure is **AMAZING** as well!

Both sides are aglow with a bold satiny luster that gleams throughout the surfaces. **SUPERB** quality surfaces show off a mellow dusting of clear champagne and subtle pewter tone bringing out the sharpness of the details. Both the definition of the devices and the subtle toning are amplified by the vivid brilliance of the mint luster. The strike is as fine as you will ever hope to encounter on a 1916 quarter.

Only 52,000 examples were struck in December 1916 as part of the "Renaissance of American Coinage". The period from 1907 to 1921 saw some of the nations greatest sculptural artists redesign America's circulating coinage: from St. Gaudens' Indian and Liberty Striding Forward designs on the \$10 and \$20 gold coins, to Anthony DiFrancesi's Peace dollar design, every denomination underwent a makeover during this period. These are some of the most popular, endearing, and beautiful designs ever used on our coins. Herman MacNeil's Standing Liberty quarter design is truly wonderful, and this is an essentially perfect example for any collector to start his or her set!

PCGS 5, NGC 3. There is just a single coin graded finer, a 67+ FH that has not been sold in auction since 2010. The most recent PCGS MS67 FH sold in our May 2018 Regency Auction for \$152,750. Sheer perfection! This SUPERB GEM 1940-D quarter is tied for FINEST graded and has an exceptionally high end and clean look. Boldly lustrous with a shimmering, satiny mint frost that radiates with a white hot brilliance. Sharply struck devices stand out against the smooth fields and even a strong glass fails to locate any serious contact of any kind. Iridescent peach and champagne tone delicately dust the peripheries attesting to the originality and adds to the wonderful eye appeal.

PCGS 68, NGC 44, CAC 29. There are just 7 in MS67+ and NONE finer at PCGS. The most recent example to sell in auction realized \$5,520 in June 2019 and the current PCGS Price Guide value is listed at \$5,000. Worthy of the FINEST of Washington quarter sets, this high end SUPERB GEM will no doubt see fierce bidding competition when it crosses the block!

A dramatically toned SUPERB GEM that is high up there on the PCGS Population Report. The technical condition is just a small fraction of this coin's story however. What sets this one apart is the AMAZING toning. Iridescent shades of red, orange, green, rose, and silver are brought out by a vivacious mint luster that blooms all over.

PCGS 75, NGC 65, CAC 33. There are 13 graded MS67+ at PCGS and just 2 finer in MS68. While the last two have sold for \$1,440 and \$1,880 in 2018 and 2017 respectively, this coin sold in November 2012 for nearly \$6,500. The current Collectors Universe value is \$2,050, but this coin will far exceed that level! Considering that the Collectors Universe value in 68 is \$10,000, this coin presents a great opportunity for anyone looking for a high end example for their Registry Set.

POPTOP! Tied for FINEST with just four other grading "events," and SUPERB in every way. A strong, vibrant luster blooms with an exceptional vivacity and vibrancy. The luster really amplifies the superior quality of the surfaces. A very pretty tone is seen on the obverse, likely from the end of a roll, with olive infused orange at the rim, and pale silver-blue fading to original silver at the center. The reverse is untuned. Sharply struck up, the devices are high end and free of any distracting marks. We have looked at this beauty up and down and cannot understand why CAC did not bean this one.

PCGS 5, NGC 3. Neither service has graded anything finer. The most recent example to sell in auction realized a very cheap \$5,760 in June 2019, as prior to that, these were selling for \$10,000-\$11,000 and the PCGS Price Guide value is still listed at \$13,250. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

50C 1855 ARROWS. PCGS MS66

This fabulous GEM 1855 half dollar is tied for FINEST graded and is about as pretty and original as you would ever hope to see!

Everything about this magnificent coin is essentially SUPERB! From the flawless, satiny surfaces that have a creamy, frosty mint luster that blooms with a velvety glow on both the obverse and reverse. A frame of multihued iridescent toning graces the obverse, with shades of purple, clear gold, olive-green, pale azure, and russet-tan that encircle the sharply struck up Liberty Seated motif. The reverse has a pale, iridescent toning that is more subtle, but the shades pop as they hit the light. A strong glass reveals only some minor weakness in strike (mostly in the lower right stars), and a couple of ancient lines mingle with the mint made clashing. The eye appeal is exceptional.

After the mass inflow of gold from the California gold fields, the ratio of gold and silver in use in commerce made the silver content of coins worth more than the face value. In 1853, the mint reduced the silver weight, the new composition denoted by arrows flanking date and a spray of rays around the eagle. Striking proved difficult and in 1854 the rays were removed from the reverse, though the obverse retained the arrows until the end of 1855.

The four PCGS-graded examples are as follows:

1) This coin, ex Heritage, June 2014; 2) the James A. Stack-James Bennett Pryor-Michael Riordan-Malibu-D. Brent Pogue coin; 3) the Gene Gardner coin; and 4) possibly the former NGC MS66+ CAC from the Eric P. Newman Collection.

If you have been working in an Everyman Registry set of Liberty Seated half dollars you can surely appreciate the rarity of this date and mint in this lofty state of preservation.

This coin delivers the quality and ORIGINALITY we all hope for but rarely encounter. Rich pearl gray toning swirls over remarkably well preserved, mark-free fields and is accented by a tinge of lilac. Rich, satiny luster is present throughout.

Just a hint of honest rub on the high points keeps this piece from Mint State status. Needle sharp motifs. Most extant specimens grade VF or less, so finding a coin of this caliber is like looking for a needle in a haystack!

Bluntly struck, there is some weakness to the feather details on the reverse, but the central obverse is bold. Just a few tiny ticks are noted in the fields, which is what we think kept this original coin from getting a CAC bean, and they do not really detract from the strong naked eye appeal.

Starting in 1879, the mintages of quarters and half dollars fell to the thousands of pieces. The provisions of Bland-Allison Act demanded that the mint purchase large quantities of silver and coin them into silver dollars, which introduced the Morgan dollar. Only 4,800 Seated Liberty half dollars were coined in 1879. Of that number, a surprising number were saved, and fortunately for collectors, there are a number of Gems available, such as the presently offered coin. High end, its technical quality merits the assigned grade, while the high end eye appeal led to the CAC endorsement. Boldly lustrous with hints of reflection in the fields, both sides have wonderful blues, violets, and light greens that mingle with rose patina. Sharply struck and boldly eye appealing, it will sell for a strong bid.

50C 1888 PCGS MS66+ CAC

While the U.S. mints churned out hundreds of millions of Morgan dollars between 1877 and 1889, the branch mints ceased producing any coins other than gold and Morgan dollars, and the main mint at Philadelphia production dropped to miniscule numbers. Indeed the 1888 had a mintage of only 12,001 pieces. Luckily for collectors, many of these were preserved at time of issue and there are a number of Mint State examples. However, as soon as you approach the GEM category, they become quite scarce, and this MS66+ is among the dozen finest graded at PCGS (Population 4; 8 finer, all MS67).

The present Premium GEM oozes with a thick satiny mint frost that has a rich creamy texture. A pearly-silver luster blooms on both sides with a delicate halo of golden-russet framing the peripheries. Generally well struck up, the surfaces are clean and devoid of any serious marks that would affect the essentially SUPERB eye appeal.

PCGS 24, NGC 15, CAC 15. There are 4 in MS66+, and the ones that have sold in auction have realized between \$7,050 and \$7,638. The current PCGS value is listed at \$9,500. What a great type or date coin for anyone looking for a high end With Motto Seated Liberty half. Good luck!

50C 1865 PCGS PR66+ CAM

A classic American BEAUTY from the AMAZING Oliver Jung Collection. POP 1 for the grade and just a single PR67 CAM is graded higher in the designation! Even with a popular Civil War date, this really is an underappreciated, sleeper date in the series that slips by the less observant buyer.

Boasting drop dead beautiful album toning which graduates in color from deep, electric blue, magenta and sea foam green to lighter fiery orange and gold hues.

Not only is the intensity of the cameo contrast undiminished by the color, it is actually enhanced by it. The contrast is STUNNING and GORGEOUS. One teeny mark away from a PR67 grade! So well struck it looks like it came off the press just yesterday and the rich, frosty luster only adds to the overall aesthetics. FRESH and original and sure to delight the fussiest collector.

Just 500 Proofs were struck. PCGS 1, NGC 0. This coin last sold in February 2014 for a very cheap price (we do not understand why). More recently regular PR66 CAMs have brought way more! We sold one in October 2017 for \$15,863, and keep in mind the sole PR67 CAM is worth around \$35,000! The current Collectors Universe value is \$23,500 and if you want the quality, originality and eye appeal this piece delivers, we suggest you proffer a hefty bid!

This beautiful GEM Proof is an old friend, a coin we sold in May 2016 as part of the Valley Collection, where we described it as:

What a beauty-- this is what a GEM PR Seated half dollar should look like! Rich reflective mirrors catch the light and really bring out the rich shades of blue, gold, orange, and amber. The devices are nice and frosty. The mirrored fields are glassy and completely smooth. Only 960 Proofs were struck, and this one is among the finest graded, and among the most eye appealing this cataloger has seen."

PCGS 4, NGC 1, CAC 4. All the PCGS coins are PR65+, and only two are finer in the designation. The last three examples sold between \$10,000 and \$12,000 (well above the current Collectors Universe value) and neither of the two finer examples have ever traded in auction. We expect this VERY HIGH END GEM to sell for a very strong price when it crosses the block.

A RESPLENDENT GEM with radiant, highly reflective fields highlighting intensely frosted design elements. Save for one or two faint lines, this coin would be a candidate for a + if not a full grade increase. No guarantees, just our opinion. A mere 1,100 proofs were coined this year.

On a side note, what has happened to all of the blast white Seated half dollars of late? Have you noticed that the lion's share of specimens on the market are toned? Better bid strong if you want this BEAUTY!

LOT 285**50C 1904-S PCGS MS65**

LRCA is pleased to present this GEM 04-S Barber half dollar. Scarcer than you would think based on the mintage, the 1904-S is a major condition rarity in the Barber half dollar series. This date always attracts lots of attention in Mint State grades, especially as you climb the ladder. One theory we have read is that the major 1906 San Francisco earthquake and subsequent fires were responsible for large numbers of banks, homes, and businesses being destroyed, and along with them, perhaps large quantities of these half dollars.

The surfaces are smooth and devoid of all but the most insignificant little ticks that can only be seen with the aid of a powerful loupe. Richly toned, (like most of the higher grade examples that have sold recently) with pastel iridescent hues that gently blanket the obverse and reverse. As you rotate the pearly-lustrous surfaces in a light, the iridescent lilac, blue, gold, rose, and olive-tan hues come out. The color is a little more "speckled" on the reverse. The eye appeal is very unique and lovely.

PCGS 5, NGC 2. An example brought \$43,500 in an October 2015 internet-only auction, and this coin was offered in our September 2018 Regency Auction, where it brought \$29,275. Even a non-CAC NGC coin brought nearly \$30,000 back in 2012. The current PCGS Price Guide value is listed at \$40,000. Keep in mind only five PCGS coins are finer, (valued at \$72,500 in 66 and \$105,000 in 67). Worthy of a very special set of Mint State Barber halves, this one will see lots of bidding activity before the gavel falls.

A scarcer date in all grades, the 20-D is conditionally very scarce in MS64 and pretty rare any finer.

Satiny and brilliant! A strong luster glows and radiates boldly throughout on both obverse and reverse. This date is notoriously weakly struck in the central areas of the design, and this one is no different; there is a bluntness to Liberty's thigh, hand, and the eagle's leg. All the other details are sharply impressed. A pale white iridescence is lightly dusted on the left obverse field, accented by the shimmering, satiny mint frost. The eye appeal is very nice.

PCGS 127, NGC 75, CAC 18. The most recent example sold for \$7,800 and the current PCGS Price Guide value is listed at \$8,500. These become cost prohibitive to most collectors in MS65, as the last PCGS/CAC example realized \$27,025 in our September 2018 Regency Auction. This is a very pleasing example of this RARE date, offering a very high end CHOICE Mint State look!

A highly frosted, pearlescent mint luster blooms with a vibrant, billowing vivacity in the fields. The strike is crisp and full with complete details (even the thumb is totally outlined). A delicate, pearly-gold iridescent tone graces both the obverse and reverse, accenting the smooth, problem free surfaces. The eye appeal is wonderful, and this near-GEM quality coin is worthy of its accolades from PCGS and CAC.

Following the wartime boom of 1917-1918, the economy slowed and fell into a deep recession. By 1921, demand for circulating coinage dropped drastically and coupled with the provisions of the 1918 Pittman Act that called for millions of new Morgan dollars to be produced. The result was that the Denver mint produced only 208,000 half dollars, most of which disappeared into circulation - the typical survivor is in VF or lower grade; it is a conditionally rare issue in any Mint State grade.

Although the thumb and hand show separation, there is some weakness in the feathers on the eagle's leg (which is typical for the issue). Wow, what a **BEAUTY!** Deep mint frost is distributed throughout in a thick layer. Although there are a few marks in the right field and on the eagle's tail feathers, they are well concealed and need a strong loupe to be seen.

What a stunningly eye appealing GEM! A pleasing PALETTE of vibrant color! Rippling waves of amber, ice blue, sea foam green, tangerine and honey gold caress deeply lustrous surfaces. SUPERIOR strike for the issue, with separation of the thumb and hand clearly present. A couple of small tick marks are in the right obverse field, but cannot be seen without a loupe. The eye appeal is amazing!

PCGS 53, NGC 38, CAC 19. There have been 19 auction appearances for PCGS/CAC coins, with the average APR being \$10,442; the most recent example to sell brought \$7,800 in the 2019 FUN auction. Tied for FINEST graded! This is an exceptionally high end, beautifully preserved and pristine late date Walker. Exceptional and superior quality surfaces are lustrous with a strong, satiny gleam that enriches the pale, pastel iridescent toning. Shades of lilac-silver and golden-russet grace the surfaces, somewhat lighter in the central portions and richer toward the peripheries. The devices are sharply struck up and the surfaces are clean and free of any serious marks. The eye appeal is exceptional!

Among the absolute FINEST graded, this beautifully toned 47-D stands out for its outstanding eye appeal!

Superb luster blooms all over bringing out the rich autumnal hued toning that graces both sides. Shades of burnt russet, amber-gold, and olive-tan patina dominate, while a light brings out shades of blue and forest green. The surfaces are smooth, devoid of any marks. Well struck, and beautifully lustrous this SUPERB GEM is worthy of its place at the APEX of the PCGS Population Report and CAC green bean of approval. Clearly this remarkable coin sat for ages in an original Mint Set holder.

PCGS 74, NGC 62, CAC 30. There are 11 reported at PCGS in MS67+ and there are NONE GRADED FINER. The only PCGS/CAC example to ever sell in auction brought \$34,075 in our September 2018 Regency Auction and the current Collectors Universe value is listed at \$30,000. No excuses need be made regarding striking as the full bell lines are prominent and completely separated to please the most discriminating collector. MONSTER TONED, the crimson toning on this piece is so intense it looks like flames leaping from the surfaces. Intermingled with the vibrant crimson is electric lime green and explosive tangerine color. Virtually FLAWLESS with the strongest magnification required to see any ticks. What really makes this coin so beguiling is the intense underlying luster that somehow withstands the depth of color and allows the coin to POP with vibrancy. The reverse is toned in a lovely crescent of the hues mentioned above with frosty white in the lower center and left quadrant. Although the color is somewhat speckled, it does not diminish the eye appeal. WOW.

Majestic toning, which features every color in the rainbow, whirls and blends together with a lively pattern on the obverse. The polychromatic allure shows variegated shades of blue, green, gold, rose, violet, magenta, and crimson on the obverse, while the bold, brilliant, and lustrous reverse has a dusting of lilac-dove and pale rose-gold patina. Boldly struck devices and pristine surfaces are devoid of any of the usual minute ticks that are often seen on the highest points, even on SUPERB GEM grade pieces. A real prize, one of the FINEST of the entire series!

PCGS 35, NGC 6, CAC 14. There are a total of three distinct specimens graded MS67+ FBL, of which we have had the pleasure of selling the other two earlier this year. A CONDITION CENSUS GEM! The 53-S is the classic KEY DATE rarity in Full Bell Line in the entire series. While recently more common dates in ultra high grades have caught the market's attention, this is the undisputed, most difficult date to find with crisp definition to the Liberty Bell.

A bold, swirling luster boasts soft shades of lemon, peach and pewter gray color on the obverse and snowy white on the reverse. Remarkably choice surfaces are devoid of contact marks, though a few tiny ticks are noted under strong magnification on the collar of Franklin's jacket. Often weakly struck which makes this example even more prized with the Full Bell Line designation. The eye appeal is particularly high end for the date!

PCGS 22, NGC 8. The current PCGS Price Guide value is listed at \$18,000, but this wonderfully preserved and ultra eye appealing GEM will bring more! Keep in mind PCGS has graded just four coins higher, and none have sold since 2001, when the two MS66 FBLs sold. The 1963 Franklin half dollar is a notoriously difficult date to locate in GEM quality with full split bell lines. The present coin is the SOLE FINEST certified at PCGS and is a very important opportunity for the collectors vying for the absolute top spot for their sets on the Registry.

Bright, brilliant satiny luster glows vibrantly in the fields. Untoned surfaces are a very pleasing silver white. While over 295 million were struck, many of these 40% silver half dollars met the melting pots in 1979 and 1980 when the Hunt Brothers tried to corner the silver market, driving the spot price to \$50 an ounce. Likewise, earlier this decade, when silver again rose to \$48 an ounce, this cataloger ran many through counting machines to make bags of \$1,000 face value to sell as bullion. The populations show just exactly how truly difficult this date/grade are to find so fine!

 Ex Eliasberg.

Legend Rare Coin Auctions is proud to offer this remarkable quality, near-GEM B-5, BB-27 1795 dollar that is one of the absolute **FINEST KNOWN** of the variety and the date! A treasure of early federal issue coinage. Boasting bold, superb visual and technical numismatic quality as well as the most famous provenance in American numismatics: Louis Eliasberg.

In terms of every characteristic that novices and advanced collectors alike desire, this coin has them all in spades! From luster, to strike, to its complete originality, this coin has it all! A vivacious satiny luster blooms in the fields throughout both the obverse and reverse. Every detail is essentially full and crisp, including the hair strands, Liberty's eye, and the stars. Likewise, the only area with any kind of striking weakness is at the central reverse on the eagle's chest feathers, typical for the B-5 die marriage. Both sides possess the classic "Eliasberg" look with a soft pewter-silver that offers hints of gold, rose, lilac, tan, and pale olive patina. Strong glass reveals a few tiny, scattered ticks, none of which are readily evident to the naked eye, and serve to forever help identify this coin as lot 2172 in the April 1997 sale of the Eliasberg Collection.

This important early dollar traces its provenance to the E.W. Ropes Collection, sold by New York Coin & Stamp Co., February 1899 to the J.M. Clapp Collection. John H. Clapp; Clapp Estate, via Stack's in 1942, to Louis E. Eliasberg, Sr.; Eliasberg Estate (Bowers and Merena, April 1997, lot 2172. This coin has appeared most recently in March 2007.

The last non-CAC PCGS example sold four and a half years ago, realizing \$258,500 and it did not have the outstanding eye appeal of this **AMAZING** Flowing Hair dollar from the Eliasberg Collection. The die crack at the base of 1 and the die flaw after the last S in STATES identify this very pleasing AU53 as a B-9, BB-166. A common variety with an estimated 40-80 in the AU range, this one boasts great eye appeal.

Saturated with an old cabinet tone, integrated shades of olive, orange-gold, rose, and teal blend over pewter-slate patina. A warm, underlying luster clings to the surfaces, visible when the light hits the surfaces at certain angles. A well rendered strike left strong definition to the design elements, any lack of definition comes from its brief stay in circulation. Do not let the lack of a CAC bean distract you, this coin is exceptional quality for the grade, and will delight any collector of early dollars or type coins.

PCGS 124, NGC 69. While the last two coins have sold cheaply, they do not have anywhere close to the eye appeal of this coin. Taking all PCGS-graded examples going back to February 2014, the average APR is over \$6,000 and the current PCGS Price Guide value is listed at \$7,250. We think our estimate is a conservative, but fair assessment of where a coin of this quality should hammer. Good luck!

\$1 1799/8 13 STARS REVERSE. PCGS XF45 CAC

Ex. D.L. Hansen Collection, as noted on the PCGS holder.

B-1, BB-142. Here is a perfectly original, pleasing collector grade coin that we described in our October 2017 Regency Auction as:

"Well defined devices and problem free fields show light wear on the high points. Rich, deep toning shows amber, gold, and slate blue-gray toning from longtime storage, probably in an old paper envelope or leather pouch. The eye appeal is superior to many in this grade. This obverse die was used to strike all three overdate varieties, and is the first of two reverses with 13 stars above the eagle on the reverse."

PCGS 22, NGC 2, CAC 7. This coin sold in our October 2017 Regency Auction for \$5,523 and the current PCGS Price Guide value is listed at \$5,450. Boasting the D.L. Hansen Collection provenance, this coin is worthy of another impressive cabinet of coins.

Fortune smiled upon this 1801 dollar! This B-2, BB-212 with 12 Arrows is a welcome exception! Some light die clashing is noted around the date which is typical for the variety and is generally considered an intermediate die state. It is estimated 500-900 pieces exist in all grades.

Sporting a bold strike, which is most uncommon, as most come with soft strikes at the centers of the obverse and reverse.

The surfaces are truly lovely. Profuse amounts of mint luster grace unspoiled surfaces which are toned peripherally in

vibrant fiery orange and ice blue hues. Some wisps of pearl gray tone is present in the hair detail. No adjustment marks! A couple of light scratches are noted in the left obverse field behind Liberty's head, and are only evident with strong magnification.

PCGS 57, NGC 30, CAC 9. The current PCGS Price Guide value is listed at \$7,000. It's hard to believe only 9 pieces have received a CAC sticker, but we can see why this coin did. Only four examples have ever sold in auction, with an average APR of \$6,162. What a great coin! In the upper echelon of graded examples and worthy of a strong bid.

Ex Cardinal and Highlander Collections,
as noted on the PCGS insert.

B-5, BB-252. A lovely, deeply toned example that shows off fully defined devices. Shades of deep blue, slate, with tinges of magenta and tan-gold, especially on the reverse. There are a few old scuffs and traces of contact which are mostly hidden under the rich layer of toning. Well defined devices stand out against the surfaces, and the eye appeal is nice for the grade - there are too many early dollars that have been dipped out over and over again leaving any resemblance to originality removed.

PCGS 14, NGC 22. This was the most recent non-CAC example to sell in auction, realizing \$10,200 in the 2019 FUN auction. VERY RARE any finer, there has not been a PCGS AU58 sold since 2002! Essentially of full CHOICE Mint State quality, this is a rare Uncirculated survivor from an original, low mintage of 20,000. Only one pair of dies was used to strike all of them, and this one must be an early striking as the obverse is semi-Prooflike and has a nice reflectivity to the luster.

The icy texture of the obverse fields show some minor lines and scattered ticks, but are mostly hidden under the dappled pale blue, amber-rust, dove, pewter, and russet patina. Sharply struck devices stand out against the surrounding fields. The eye appeal is quite nice for the assigned grade.

PCGS 14, NGC 6, CAC 8. Do NOT let the pops fool you! There has not been a PCGS/CAC coin sold since February 2011; a coin that sold for \$7,763, way back then! The Collectors Universe value is listed at \$7,000. This nearly CHOICE Mint State example is very high end for the assigned grade. Rich dove, pewter, gunmetal, and lavender toning graces both sides, clearly from storage in an old collector envelope. The eye appeal is excellent.

PCGS 6, NGC 4, CAC 2. The most recent example was the one we sold as part of the Issaquah Estate in May 2019, which realized \$12,338. Do not let our good fortune of having handled three other PCGS MS62s in the last four years fool you, this is a very tough date in such a high grade, and extremely rare any finer! What a marvelous HIGH END example, virtually a full GEM caliber early Seated Liberty dollar and a very rare and underrated example. What a great coin!

For an 1847, this coin has a good luster and overall, the surfaces are exceptionally clean and smooth, with a warm underlying satiny luster that glows all over. Only when using a strong glass can you see the few light scuffs and widely scattered ticks that preclude a GEM grade, but none are serious or stand out. Both sides are evenly covered by an original mix of pearly silver with warm golden-tan accents toward the rims. Miss Liberty and the details are fully struck and have light frost. The eye appeal is exceptional in every way.

PCGS 11, NGC 9, CAC 1. This is the SOLE MS64+ graded at PCGS and the PCGS Population Report shows five graded MS65 finer, none of which have sold in half a decade (the last one brought \$88,125 in our October 2014 Regency Auction). The current PCGS Price Guide value in MS64+ is listed at \$18,500, though when you consider what a 65 is worth, it does seem cheap. If you are a Seated Liberty dollar collector, or a type collector looking for a very high end example for your set, this beautiful coin is worthy of any high end collection and will invite very intense bidding.

Thick and satiny mint frost glints and glimmers on both sides in the fields with an almost opal-like sheen. Snowy-white surfaces mingle with traces of a dappled golden tone that clings to the recesses of some of the design elements, especially out toward the peripheries. Nicely struck for the date with just some minor bluntness of strike seen in the central devices, but better than typically seen. A strong glass will reveal some minor "ticks and giggles" none of which have any impact on the exceptional visual allure or technical quality of this near GEM Seated dollar.

PCGS 6, NGC 10, CAC 2. This is the only 64+ graded by either service and it has not appeared in auction. The current Collector's Universe value is listed at \$17,500 and that level may prove low. This is one of the three **FINEST** examples of this major early Proof Seated Liberty dollar rarity graded by PCGS! Stunning reflection, blazing mirrors, highly seductive contrast, everything about this monster is high end and beautiful!

The deeply reflective mirrored fields show off a boldness and clarity rarely encountered on an early date Proof. The peripheral devices are wonderfully toned with blues, golds, and purples that yield to brilliant silver centers. The sharply struck central devices are fully frosted and stand out, not just with a bold cameo effect, but almost deep cameo contrast, on the obverse. The pattern of the peripheral toning is very similar to the Amon Carter coin, lot 263 of Stack's January 1984 auction, however it is hard to tell from the old black and white photo. A few ancient lines in the fields account for the lack of a CAC bean, but don't let it deter you from bidding, take our word for it, this coin's quality is all there! Amazing eye appeal.

Only 30 Proofs were struck. PCGS 3, NGC 0. This is the PCGS CoinFacts Plate Coin. The last one to sell in auction was in the 2016 ANA auction (a weaker market) for \$42,300 and prior to that, it was the former Jack Lee coin, that realized \$47,000 in the 2013 FUN auction. Overall, the surfaces are smooth and clean boasting a full, booming luster that really brings the creamy white surfaces to life. Both sides are radiant in their exceptional brilliance! Sharply struck up, the details are wonderfully crisp with complete definition. Only the most delicate clear gold can be seen on either side, attesting to its originality and adds to the wonderful eye appeal.

In 1873, the federal government discontinued the coinage of silver dollars, and replaced them with the trade dollar, designed to circulate along side the Mexican 8 Reales that were circulating in the Far East trade. Philadelphia, Carson City, and San Francisco struck trade dollars for circulation until 1878, then in Proof only for collectors from 1879 to 1885.

Ex. Legend Collection.

Clearly this is an old, dear friend to the Legend family. At one time, this amazing coin sat in our partner, Bruce Morelan's world class collection of Trade Dollars. Not only is this coin worthy of the MS65 grade assigned by PCGS, but it is certainly in the top 1% of all survivors of the issue. A sizeable mintage of 987,100 flowed from the Philadelphia mint, but the vast majority served their purpose, exported to the Orient; high end Mint State graded coins, especially in GEM or higher are EXTREMELY RARE.

Fully struck and boldly lustrous throughout, including areas that are often soft, such as Liberty's head and upper obverse stars. Brilliant mint luster blooms with intensely frosted surfaces, which radiate boldly in a light. There are just a few tiny, microscopic breaks in the frost that are all that keep this AMAZING GEM from an even higher grade. The pearlescent sheen is the only "toning" that is seen on this otherwise snowy white beauty.

This amazing example is awash in a dappled melange of iridescent toning, with shades of gold, copper, olive-tan, and slate blue seen as the light pours over the brilliant surfaces. The fields ooze with radiating cartwheel luster that brings out every subtle shade of toning. The devices are razor sharp in definition with each and every design element crisply detailed. The fields and reliefs are wonderfully well preserved with nothing to affect the eye appeal visible without the aid of a very powerful loupe. You will be hard pressed to find a more beautifully preserved or eye appealing example.

Bold, frosty mint luster has a warm, pearlescent sheen on both sides, though as you rotate the GEM quality surfaces in a light, hints of semi-Prooflike flash comes to the surface. The sharply struck devices show a nice frosty texture. This visually impressive GEM has a narrow band of amber and cobalt toning at the rims, which fades to a pale golden before yielding to brilliant silver in the central portions of the design, suggestive of long term album storage. A few light traces of contact, are noted with the aid of a glass, but do not detract from the absolute GEM quality.

The Capped Die variety is avidly sought, and the name is a bit of a misnomer, some catalogers more accurately call it "CC over CC" Listed as a Top 100 variety in the VAM series, it is a popular Red Book listed issue. In the past, the Capped Die was thought of as "a poor man's 1879-CC," but modern research has proven how rare this issue is!

What a marvelous borderline SUPERB GEM! Tied for FINEST graded honors, it is not hard to see why! Brilliant lustrous surfaces are extremely clean and satiny smooth. When using a strong glass you get even more impressed. A full glowing luster beams boldly from all over. Both sides are GEM white. Miss Liberty and the details are fully struck and are frosted. Her cheek is above average in cleanliness too. The eye appeal is fabulous!

A reflective GEM DMPL! Even without CAC approval, this coin is all there (we would not have accepted it for auction if it wasn't). Stunningly bold hair details detail is noted above Miss Liberty's ear, which is significant as many pieces coined this year show a touch of weakness in this very area. Flashy ivory luster in the fields has a bold reflection that accents against the brilliant frosty accents on the motifs. You need magnification to see the tiny ticks in the fields.

PCGS 31, NGC 9. VERY RARE any finer—just a half dozen have received higher grades at PCGS. The most recent examples (only two in 2019) have realized \$3,000 and \$3,360 and the current PCGS Price Guide value is \$5,000. A very underrated DMPL date worthy of a great set!

This beautiful coin was sold in our July 2017 Regency Auction XXII where we described it as: "Clearly a Northern Lights wannabe! This coin could have been in the set if it had been offered when we were building it. Technically this coin is all there and then some. The obverse is remarkably clean, while the reverse (using a strong glass) does have a few tiny ticks. A full booming luster makes the iridescent colors really pop. A sensational rainbow of gold/honey/baby blue/violet/deep pearl green/royal blue form a memorable pattern on the obverse. We unhesitatingly rank the colors a full 9+ on our 1-10 color scale (10 is the finest). Miss Liberty and the details are all sharply struck.

If this had been in Northern Lights, it probably would bring \$4-5,000.00 in a massive bidding war. Yes, it is that kind of color! Good luck!"

Here is a date you rarely see with any kind of deep, attractive toning. Most 82-Os are a glossy lustrous with pale gold, or pearly surfaces, and sometimes if they have richer colors, they are russet, tan, or olive hues.

This coin is a great exception to that rule, and despite the modest MS63 grade, it is very attractive! Deep purple and green colors dominate the centers, while the peripheries have shades of blue, gold, orange, and magenta-rose. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

This is a very underrated condition rarity! A generous mintage of over 6 million flowed from the New Orleans mint, but most were put into circulation where they remained. Whatever bags remained in treasury vaults were melted en masse in the great silver melt authorized by the 1918 Pittman Act. Difficult to find in any grade above MS65+, it becomes excessively RARE in MS67, with a population of just 5.

Impressive, rolling mint luster glows with a stunning silver brilliance that shimmers with a dusting of the ever most faint golden hue that comes out in a light. The cartwheels are bold, whirling with a strong vibrance. The details are all sharply struck up with essentially complete definition, sharper than the vast majority that you see of this date. The visual allure is very high end and the surfaces are very clean, leaving us to wonder what CAC saw that precluded a green bean.

PCGS 5, NGC 1. This is NOT the former NGC coin that sold in the 2018 FUN auction, as it is much cleaner! The last PCGS MS67 sold back in the 2010 ANA auction, hard to imagine that nearly a DECADE has passed since one sold! That coin brought nearly \$30,000 way back then! This SUPERB GEM is PRISTINE! It is indeed virtually perfect, as expected for this lofty state of preservation. A thick, mint frost drapes both sides of this impressively lustrous beauty. Iridescent silver-white bloom shows some delicate hints of gold hidden in the devices. Sharply struck throughout, the details are fully struck up and the cheek is thick with a dripping white frost. \$1 1884-S PCGS MS63+ CAC

One of the great condition rarities of the Morgan dollar series, the 84-S is extremely rare in high grade, despite a generous mintage of 3,200,000. However, due to a high rate of circulation of the issue, this is one of the MAJOR condition rarities in the series. VERY RARE in choice, and virtually unobtainable in GEM or better grades. This is one of those issues that most collectors only dream of owning in Mint State--many opting for a high end AU58.

This is an impressive CHOICE Mint State example! Very high end in every way. A bold cartwheel luster rolls along the generally smooth, clean surfaces. Well struck, Ms. Liberty and all the details are crisply impressed on both sides, and a light golden toning mostly along the rims provides definition and depth to the eye appeal. Although a strong glass will reveal a tiny tick or two, they are completely appropriate for the assigned grade and are not in any of the focal areas. The eye appeal is very high end for the issue!

PCGS 59, NGC 47, CAC 12. There are just 6 graded MS63+ at PCGS. One sold in April 2019 for \$72,000 and we sold one in October 2017 for \$73,438. The current Collectors Universe value is listed at \$80,000. There are only 15 coins graded finer at PCGS in all grades, most in MS64, and any one with CAC approval is a major rarity, worth well above the current value listed at \$140,000. This is a great coin for any serious Morgan dollar collector! Good luck if you want it, you will NOT be alone in pursuit of this beauty!

\$1 1885 PCGS MS66+ DMPL CAC

With just a single MS67 DMPL graded finer, this impressive, Premium Quality GEM ranks among the greatest 1885 DMPL Morgan dollars.

Blast, black and white CAMEO contrast between the deeply Prooflike mirrored fields and the richly frosted, well struck devices. The surfaces are clean and wonderfully preserved. Even with a strong glass, we fail to find anything but the most minute break or two in the frost, but NOTHING detracts from the excellent visual allure.

PCGS 108, NGC 54, CAC 26. PCGS has graded just eight in MS66+ DMPL and a SINGLE 67 DMPL finer. The most recent example sold in our June 2019 Regency Auction for \$4,465, but prior to that, one sold in April 2017 for \$5,640. The current Collectors Universe value is listed at \$7,300. The single 67 has NEVER sold in auction, but has a Price Guide value is listed at \$25,000. This one is worthy of a strong bid and placement in a great set! Good luck!

If this coin was around when the Northern Lights collector was active, we know it would have fit in! We rate the colors a 9.5+ on our 10 point scale; shades of orange-rose, fuchsia, icy-teal, lime-green, violet, and sky blue hues all blend together in a stunning array. Technically, this coin is a borderline GEM with some minor, scattered contact, which account for the grade, but the eye appeal is enhanced by a bold cartwheel brilliance. All we can say when looking at this beauty is WOW!

Our consignor's records note he paid \$4,200 for this remarkable coin! We know that this coin will see very spirited bidding for this beauty. If you collect Monster Toners, this is certainly one you need to consider and prepare to bid strongly for it!

Another truly beautifully toned 85-O Morgan. With a bold, radiating luster, the exceptional colors really come to life when you rotate the coin in a light. Displaying every color in the spectrum across a broad swath of the obverse, the violets, blues, pinks, oranges, and golds all have an impressive, intense vibrance, with accents of pale teal, aqua, and emerald green hues. We rate the colors a 9 on our 10-point color scale and the eye appeal is wonderful. Even the reverse wants to get in on the toning with a narrow band of rainbow color down the extreme left periphery. Well struck and just a few tiny ticks noted for accuracy. The eye appeal is off the charts. Worthy of a great collection of toned Morgan dollars.

Underlying the color is a vivacious satiny luster that really helps bring out the colors. The surfaces are satiny and clean with no serious or distracting marks to be found anywhere. About as HIGH END a GEM example as you will ever hope to bid on! Brilliantly lustrous surfaces are aglow in a billowing satiny frost. Sharply struck up for the date, the details are fully and crisply rendered from an exacting blow from the dies. A light golden, iridescent toning graces the obverse, but the reverse is totally untuned. The eye appeal is excellent and this SUPERB coin with its flawless look is worthy of any high end set.

PCGS 408, NGC 587, CAC 215. There are 44 graded in MS67+ and just four are graded MS68 finer. While the average APR for a PCCS/CAC is about \$3,800 and the current PCGS Price Guide value is listed at \$4,750. Deeply mirrored fields and frosty white devices are remarkably free of any marks or lines that would distract the eye. It truly is a deep, beaming DMPL that borders on the SUPERB category. While the 85-O is a very common date in Mint State, and only moderately scarce in DMPL grades through MS65 DMPL, it is VERY rare in MS66 DMPL or finer.

PCGS 5, NGC 1. The current PCGS Price Guide value is listed at \$8,250 and prior to the one that sold in our May 2019 Regency Auction for \$4,465, the only non-CAC example sold back in April 2014 (five years ago) for \$5,288 (that coin has since been CAC-approved and most recently sold in our July 2017 Regency Auction for \$6,463. Extremely high end! One look, and you will fall in love with this wonderfully preserved, stunning, lofty grade GEM. Bordering on the SUPERB category, this coin is clearly among the very FINEST that exist!

Exceptional, vividly rolling cartwheel luster oozes with crisp, clean, uninterrupted brilliance. Boldly impressed, sharply struck devices are thickly frosted and have fully defined details. A few minor, microscopic traces of contact are all that keeps this coin from a SUPERB grade.

PCGS 108, NGC 11, CAC 9. The five examples PCGS graded in MS66+ are tied for second finest at that service, with just two graded MS67 finest. At the time of this writing, only two PCGS MS66+s have sold in auction, the most recent was a non-CAC coin in March 2019 for \$18,000. Prior to that, just the Coronet Collection coin sold in our June 2015 Regency Auction (that seems like ages ago!) Clearly, the \$14,000 listed in the current Collectors Universe value is too low. Keep in mind that neither of the MS67s have garnered CAC approval and the last one sold for \$48,875 back in the 2012 FUN auction. This coin will see very spirited bidding when it crosses the block and is deserving of a place in a world class Morgan dollar set!

Ex Green Collection as noted on the insert.

The 1887/6-O is another conditionally challenging date in the extended Morgan dollar series. The surfaces show off a vibrant, satiny mint luster that glows with bold brilliance all over. Well struck for the issue, with just some weakness in the central devices, but in no way a typical pancake strike. A few contact marks hold the grade to the assigned MS64, but it is high end for the grade, as noted by the CAC endorsement.

PCGS 138, NGC 37, CAC 25. In May 2018 two PCGS/CAC coins sold, One in the Sotheby's sale of the Stone Collection for \$7,500 and one in our sale of the PFM Collection that realized \$7,050. EXTREMELY RARE any finer, there are 17 in MS64+ and just a single MS65. As anyone who studies toned Morgan dollars can attest, there are certain dates that are most commonly seen; 1880-S, 1881-S, 1882-S, 1883-O, 1884-O, 1885-O, 1886, 1887, and 1896 come instantly to mind. Rarely do any 1888-O's come with color like this one!

Clearly this majestic toned and VERY HIGH END, near Gem sat in a mint bag, its surface touching the canvas, as we see the desired textile toning pattern in the field in front of Liberty's portrait. Vivid violet and flashy pink hues dominate, mellowing to a deeper yellow-gold, then fading into a pale sea-green and silver at the right side of the obverse. We rate the colors a 8+ on our 10-point scale and the eye appeal cannot be beat! A few tiny ticks, an ancient trace of a fingerprint, and planchet roller lines can be seen, and are taken into account with the MS64+ grade assigned by PCGS. A great looking toned Morgan from a date rarely encountered with such a vivid toning scheme! Bound to set a strong bid when the hammer falls!

\$1 1889 PCGS MS65 DMPL CAC

GEM 1889 DMFLs are rare indeed, especially with CAC endorsement. This is a magnificent example with highly reflective mirrored fields with full 8" deep mirrors. The devices are crisply rendered by on both sides and covered with a rich, creamy white frost which imparts a cameo like contrast. The aid of a glass reveals some very minor traces of contact, which are amplified by the DEEP reflection and bold frost. We love the look of this monster coin!

PCGS 38, NGC 11, CAC 2. The other CAC coin is the MS65+ DMPL that brought \$6,306 in April 2019. Prices for CAC DMPLs were very strong in the recent ANA auction, and no doubt this coin will bring a strong price when it comes to the block. There are just five coins finer in the DMPL designation, and this coin deserves a place of prominence in a great Morgan dollar set.

\$1 1889-CC PCGS MS63+ PL CAC

WOW! Everything about this highly reflective Prooflike 89-CC is very high end for the grade and the eye appeal is exceptional! We have had a very hard time putting this coin down! At first impression you would think this coin is a higher grade (while we make no guarantees, you can rest assured that it looks much nicer than the MS64 PL that sold in August 2016). We know this coin is totally fresh to the market, recently graded from an old collection that walked into a coin show. It is our pleasure to offer this important Carson City Morgan dollar to the current generation of collectors.

The fields have deeply reflective, bold mirrors similar to a Philadelphia Proof striking and border on DMPL depth. The devices are fully rendered by a forceful blow from the dies, bringing up every detail to its finest advantage. The devices are also thickly frosted, with a creamy white texture that stands out with bold contrast against the watery mirrors. At certain angles in the light, both sides look like a DCAM Proof. Totally original, this coin has wonderful peripheral album toning that is particularly vibrant rich blue and amber-orange-gold on the reverse. A stray tick or line can be found, attesting to the assigned grade, but none of these detract from the outstanding eye appeal.

One of the major key Morgan dollars, and one of the rarest in Mint State grades. Only 350,000 were struck, and the vast majority went into circulation. The typical survivor is XF or lower grade. In Prooflike, this date is a major rarity, and especially so in CHOICE and finer grades. It is excessively rare in MS63+ PL or finer.

PCGS 35, NGC 50, CAC 5. There are just 3 in PCGS MS63+ PL. None of these have ever sold in auction. The last PCGS MS63 PL CAC sold over five years ago, realizing \$64,625 in April 2014. In MS63+ PL, the current PCGS Price Guide value is listed at \$60,000.

The aforementioned PCGS PR64 PL that sold in August 2016 realized \$70,500 and it had no where close to the outstanding eye appeal of this beauty--the quality is exceptional in every way!

 We sold this borderline GEM DMPL in our Final Premier Session, as part of the Sand Hills Collection, where we described it as:

"At first glance, this coin looks like a proof! This is NOT your typical 1890 DMPL. It is also VERY high end! Full 8" + mirrors beam boldly from all over. The mirrors (like on a proof) have remarkable clarity. Of course you can see some scattered tiny ticks and bag marks-but none are serious or large. The contrast the coin displays is stunning! Miss Liberty and the details are thickly frosted and are fully struck. The eye appeal is tremendous!"

PCGS 103, NGC 36, CAC 21. Prior to selling for \$2,090 in our December 2018 Final Premier Session, it brought \$2,820 in September 2012. Certainly worthy of a bid stronger than the current PCGS value of \$1,800. Only 21 are graded finer, making this a great addition to any DMPL set.

 This is such a PQ GEM example of this conditionally rare date. An intense blast white silver luster radiates with a stunning brilliance that is nearly blinding. Clean surfaces and a well above average strike give this exceptional coin its outstanding eye appeal. We really are not sure why CAC did not assign it a green sticker. While not a rare date in terms of mintage (10.7 million), precious few were saved in GEM grades. Indeed the population drops dramatically from MS64 to MS65, and in MS66 as here, there are precious few for any collector and it is an excessively rare any finer.

PCGS 28, NGC 3. The most recent example realized \$6,600 in the 2019 FUN auction, and the current PCGS Price Guide lists a value of \$8,000. There are just two coins graded finer, both MS66+ and neither have ever sold in auction, but if they did, we would suspect that the PCGS Price of \$38,500 would likely be met or exceeded.

A solid, PQ GEM of this conditionally RARE issue. Slightly more than a million silver dollars were struck, and few were saved at the time of issue. In 32+ years of operations, just over 500 have been graded MS65 or finer—that is RARE. This one has a bold satin mint luster that highlights the exceptional brilliance in the fields. A blush of light gold can be seen at the peripheries, and the surfaces are smooth and problem free. For the date, the strike is quite sharp. The eye appeal is very pleasing.

PCGS 344, NGC 98, CAC 63. CAC approved examples bring a significant premium over the price guide values; the most recent example to sell in auction realized \$5,523 in our March 2019 Regency Auction. Looking at the population figures at PCGS in MS65 and MS65+, there must be some quantity of duplication in hopes of getting a 66, as there are only 10 graded at that level, none finer, and the current value for a 66 is \$50,000. An attractive Brilliant Uncirculated example that has some very distinct claims to an even higher grade. A rare date, only 450,000 were struck and most went right into circulation. Any that were retained by the treasury were probably melted in 1918, thus ANY Mint State coin is a true rarity.

Vibrant, satiny mint luster sets the strictly Mint State surfaces aglow, bold for the date. Well struck with just some weakness in the central portions of the design.

While there are some traces of minor

contact seen on both sides, nothing is truly distracting and the eye appeal is quite nice for a coin of such modest grade.

PCGS 49, NGC 61. One sold in April for \$15,000 and another sold in this year's FUN auction for \$16,800. The current Collectors Universe value is listed at \$19,500 and this date is very difficult to find finer. Good luck.

Remarkable surfaces are as clean and smooth as you will see on ANY Morgan. Even when using a strong glass, you will find a microscopic tick -only after really searching. The texture of the surfaces is satiny smooth. A strong luster illuminates the totally original,

slightly off-white/ pale-golden hued surfaces. Miss Liberty and every detail are well struck. You can clearly see the over mintmark without a glass. The eye appeal is fabulous! A very popular variety in the Morgan series, where an old reverse die, originally prepared for use at the closed mint in Carson City, had the "CC" mintmark partially removed, then the New Orleans "O" punched over.

Anyone collecting Morgan dollars knows how difficult this semi-key date is to find in GEM grades. Despite a large number released from Treasury vaults in the 1920s-50s, the average Mint State coin tends to be on the lower side of the scale, GEMS like the one offered here are indeed quite rare and this coin ranks among the top 15 examples graded by PCGS!

Bold radial cartwheel luster rolls with an unimpeachable vibrance. Showing a light iridescent silvery-white satin luster that Dave Bowers describes as "greasy."

Displaying the typical, somewhat softly struck central devices, otherwise the strike is bold. This piece does not show the die striations that often plague the date, but there are some swirling die polish lines noted on the reverse. A few light ticks are seen on both sides, but none are especially distracting or problematic to the eye appeal.

PCGS 10, NGC 0. Only a single 66+ has ever sold in auction, a CAC-approved example from our July 2018 sale of the RanJack Collection which realized \$22,325, influencing the current Collectors Universe value of \$27,500. Truly a MAGNIFICENT SUPERB GEM, which is a borderline MONSTER TONED Morgan dollar. Not only is it beautifully toned, it also happens to be among the HIGHEST GRADED at either service.

Radiating bands of color begin at the extreme left periphery and evenly press on to the right, covering about 85% of the obverse surface. The swirling, rolling cartwheel luster brings out the variegated shades of emerald, garnet, aquamarine, and citrine. The colors blend together with a nearly tie-dye pattern, and we rate the color a 9+ on our color scale.

The underlying surfaces are totally deserving of the SUPERB GEM grade, with a trivial trace of contact seen with the aid of a glass, none of which affect the overall amazing eye appeal.

PCGS 59, NGC 110, CAC 20. This beauty is indeed in great company with both the Northern Lights coin and Sunnywood-Simpson coin. \$1 1921-D MORGAN. PCGS MS67

After a hiatus of 17 years, the mint, by the provisions of the 1918 Pittman Act had millions of ounces of silver that needed to be made into coinage. In 1921, despite a world wide recession, and low mintages for all other coins, mass quantities of Morgans were struck. Opened in 1906, the Denver mint had never struck silver dollars prior to this, and represents the ONLY date struck at that mint. Of the 20,000,000 that were struck, there are nearly 33,000 Mint State coins graded by PCGS and NGC combined, but in MS67 or finer, this date drops down to the low double digits with a combined two dozen graded between PCGS and NGC. An intense, blinding luster blooms all over on both sides. Frosty surfaces are aglow with a very strong brilliance and are smooth, free of any distracting marks or lines. We note a few minor ticks, but they are not in the prime focal areas of the design and can be overlooked in light of the outstanding eye appeal and technical quality.

PCGS 11, NGC 12. The last non-CAC coin sold in a much weaker market, bringing \$11,750 in the 2016 FUN auction. This is a very high end 22-S dollar, a prime condition rarity in the Peace dollar series. Nearly 17.5 million silver dollars fell from the dies, the vast majority survive in lower Mint State grades. In Gem it is scarce, and extremely RARE in so high a grade, that indeed, PCGS has graded just 15 in MS66 and a single MS66+ after 33 years of operations. That fact clearly shows just how difficult this date is to find.

A strong, vivid brilliance graces both sides of this GEM. The luster radiates in swirling bands accenting the sharply struck devices and satiny smooth surfaces. The devices are crisply rendered by an exacting blow from the dies. Although we note some pale iridescence, we consider this GEM to fit nicely into an untuned set.

This coin is well suited for any high ranked Regency collection.

Rarely found in GEM grade, the 23-S is a major condition rarity. Although plentiful in terms of strict mintage figures, tracking down a GEM example becomes a monumental challenge because of the weak strikes associated with the date.

Eye popping, cartwheel luster splashes over satiny surfaces. Graced by honey gold toning highlights, just enough to lend to the originality of the piece. Not to be overlooked is the rich frost gracing the fields and design elements, which by the way are keenly defined. A couple of breaks in the luster are noted on the cheek and a few light tick marks can be seen under magnification on the eagle.

\$1 1926-D PCGS MS66+ CAC

A beautifully preserved, exceptionally high end quality GEM! An amazing looking and sharply struck 26-D that ranks high on the roster of graded coins. A few tiny contact marks are noted, the worst of which are hidden within the eagle's feathers and they do not detract from the outstanding visual allure. An impressive die crack crosses the truncation of the bust, through the top of the R in TRVST and ends in the field below the flowing tresses of Liberty's hair behind her head. Every detail is fully delineated with a wonderful, frosty white texture on both sides. The surfaces are exceptionally high end and the eye appeal is top notch!

PCGS 297, NGC 105, CAC 96. There are 22 in MS66+ at PCGS, and just 8 coins finer. The most recent example sold in our May 2019 Regency Auction for \$14,100 and the current PCGS Price Guide value is listed at \$12,500. Keep in mind no MS67 has sold in four years, when a PCGS MS67 CAC sold for a record \$47,000! This PQ GEM is worthy of any high end Peace dollar set!

\$1 1926-S PCGS MS66+ CAC

While nearly 7 million 1926-S Peace dollars fell from the dies, most of these went right into circulation, where they would remain for ages. The vast majority of Mint State examples fall in at MS64 or lower. In MS66 this is a rarity, and is excessively RARE in 66+ or finer.

This is one of the absolute FINEST example of this major condition rarity we have ever had the pleasure of seeing. Considering the Peace dollar collections that we have recently sold had only MS66s (Crow River, Issaquah, and Hickory Ridge), this magnificent SUPERB GEM is the FINEST we have had the pleasure of selling and is topped by just two MS67s.

Extremely brilliant surfaces are ablaze with a white hot, swirling mint luster. The vivid brilliance is about as vibrant and bold as you will ever see on a 26-S. Liberty's hair strands are razor sharp in definition, as are all of the feathers on the eagle's wings. The surfaces are essentially pristine, with zero visible flaws to be seen anywhere, even under the most careful examination with a strong glass. The present 26-S is truly a divine survivor, a gift from the numismatic heavens for the collector who demands both exceptional grade and visual allure.

PCGS 108, NGC 36, CAC 18. There are just THREE graded MS66+ and a mere two finer, both MS67. While no MS66+ has ever sold in a major auction, there was one in an internet auction in April 2019 that brought over \$28,000. The most only MS67 sold back in 2011 for \$32,200. Today's PCGS Price Guide value is listed at \$28,500 and we suspect with the exceptionally strong demand seen for 20th century condition rarities, this coin will be bid to a record price! This will be a highlight of whatever set it graces, good luck!

\$1 1927 PCGS MS66

One of the FINEST graded examples of this lower mintage date and a real prize for the Registry Set collector looking to upgrade this date in their collection.

Intense, brilliant cartwheel luster radiates boldly across the GEM quality surfaces. Sharply struck devices stand out with full definition on both sides. Nary a mark can be found, even using a strong glass, that has any impact on this wonderfully high end coin's eye appeal. Essentially blast white, this wonderful 1927 dollar has a mint fresh eye appeal, worthy of the finest of collections.

PCGS 19, NGC 2. The most recent example sold in March 2019 for \$22,800 and prior to that, one sold for a record \$36,000 in the 2018 ANA auction. The current PCGS Price Guide value is listed at \$32,500. NONE are graded finer, making this a prime candidate for a top ranking PCGS Registry Set. Be prepared to place a very strong bid to bring this one home!

Intensely lustrous for the assigned grade, this example is oh so close to a full GEM grade. The 1928, with a mintage of 360,649, is the main key to the series. Sharply struck devices stand out boldly on both sides. A few tiny ticks and a blush of iridescent gold and pale blue can be seen on the reverse. The eye appeal is very high end.

PCGS 2254, NGC 1044, CAC 349. There are 130 graded MS64+ at PCGS and the current PCGS Price Guide value is listed at \$1,500. The most recent recent one to sell in auction realized \$1,540 in our August 2018 Premier Session. Keep in mind that a PCGS/CAC MS65 will cost above the Collectors Universe value of \$3,500 (we sold two earlier this year for \$5,758 and \$7,931). A coin that will delight any collector of high end for the grade Peace dollars.

Totally ORIGINAL! Everything about this near-GEM screams originality. A robust satin luster gleams in the light. The obverse has a soft dusting of russet-gold and rich pewter-silver patina. Nicely struck on both sides, the eye appeal is very nice for this conditionally rare date.

PCGS 2328, NGC 1325, CAC 319. PCGS has graded 265 in MS64+. There is a wide range of auction results from 2019 ranging from \$1,323 to \$3,600; but most falling in the \$1,323 to \$1,763 range. The current PCGS Price Guide lists a value of \$1,450 in 64+, and that number jumps to \$20,000 in MS65. This visually lovely near GEM will bring a strong bid.

Exceptionally high end quality! A bold and brilliant luster beams all over accenting the palest of iridescent, clear gold overtones. The mint brilliance really brings out the definition of the sharply struck devices. Even under a strong magnification, we are unable to find any serious marks or ticks of any kind. The eye appeal is high end in every way.

In all, this is a very pretty, SUPERB GEM 1934 dollar. If you are looking for a high end example for your set, your search can end here.

PCGS 239, NGC 40, CAC 72. PCGS has graded 41 in MS66+ and just 6 finer. The last three examples have sold in the \$5,875 to \$6,600 range and the current Collector's Universe value is listed at \$8,000. Keep in mind that the only PCGS graded MS67 to ever sell in auction crossed the six figure mark in the 2018 ANA auction, making a high end MS66+ like this a VERY attractive value for the advanced Peace dollar collector! We know there will be intense bidding for this impressive beauty!

Clearly this is a very special 34-D Peace dollar. We have inspected this coin closely with a strong glass, rotating its lustrous surfaces in a light and it is totally worthy of its place near the apex of the PCGS Population Report.

AMAZING, bold radial luster swirls on both sides of this premium quality GEM. The icy silver surfaces are booming with a stunning, rolling cartwheel brilliance. The eye appeal is truly high end for this late date, boasting a crisp strike and very clean surfaces.

PCGS 119, NGC 27, CAC 22. PCGS has graded just 10 coins in MS66+ and a mere 2 finer. The last CAC-approved example to sell in auction was back in June 2013 for \$22,325--that is AGES ago! The current PCGS Price Guide value is listed at \$26,500. Two are finer, but none have sold in over a decade (the MS67 sold in April 2009 for \$86,250!). This CAC-approved MS66+ is very high end and SUPERB and worthy of a GREAT Peace dollar collection!

Tied for the FINEST graded by PCGS, this impressive, borderline SUPERB GEM is a true delight to behold! This is a coin worthy of placement in any high end Peace dollar set.

Sharply struck up details stand out against brilliantly lustrous and satiny smooth fields. Both sides exhibit extremely clean surfaces that are essentially devoid of any noticeable contact of any kind. Hints of light iridescent tone can be seen on both sides, but it would fit in nicely in any untuned GEMS!

PCGS 344, NGC 74, CAC 120. There are 74 graded MS66+ at PCGS, and NONE are graded finer at that service! We sold the last two PCGS/CAC examples, one bringing \$5,875 in June 2019 and the other \$8,225 in March 2019. A totally original, beautiful, and high end 35-S dollar. This is the last issue of the Peace dollar series, and this coin is among the highest two dozen PCGS graded examples.

Sharply struck up devices stand out against the smooth, pleasing, problem free surfaces. Radiant, satiny mint frost blooms on both sides accenting the delicate, totally original pale iridescent hues. The eye appeal is excellent.

PCGS 212, NGC 65, CAC 62. PCGS has graded just 21 in MS66+ and 3 finer. The most recent PCGS/CAC example to sell in auction was back in June 2016, realizing \$10,575. Among the top dozen examples graded by PCGS, this is a gorgeous example of this first year of gold dollars struck at the New Orleans mint.

A sharply struck jewel has thickly frosted devices that stand out against the lustrous, brilliant surfaces. Every detail is fully delineated and this beauty would qualify for a GEM grade were it not for a tiny break in the frost. The eye appeal is exceptionally and remarkably high end.

PCGS 25, NGC 29, CAC 11. PCGS has graded 2 in MS64+, the other one sold in the 2014 ANA auction for \$7,520. VERY RARE any finer, there are 7 in MS65 and 2 in MS65+ finer at PCGS. The current PCGS Price Guide value is listed at \$8,750, which jumps to \$16,500 in MS65. LOT 460

G\$1 1855-C PCGS AU55 CAC

An incredibly RARE and attractive Charlotte mint gold dollar, the only year issued by the Charlotte branch mint, and is one of the rarest of all gold dollar issues, especially in high grade. According to David Akers's monumental research, the average grade for the date was VF-27 in his analysis of auction records. More recently scholars note that the date is usually encountered in VF and XF grades, with AU55s being VERY RARE, extremely so any finer, with maybe five in Mint State grades.

The low mintage of 9,803 is just a part of this coin's story. The other part is just how poorly the majority of this issue was produced. The planchets were very poorly produced with major flaws or planchet roughness. Aside from this, the new planchet sizes, which were increased from 12.7mm to 14.3mm made the blanks thinner. The dies were engraved too deeply to bring out all the details with the thinner planchet stock.

Despite the flawed planchet, the strike is bold throughout, keenly impressed by deeply clashed dies. The color is a warm, orange gold with soft olive-green accents throughout. The poor planchet quality, in this cataloger's eye, does not detract from the grade or eye appeal, and actually makes this rarity quite charming and a delight to behold and contemplate. The surfaces show a soft satin luster under the toning that adds to the great visual appeal.

PCGS 13, NGC 38, CAC 3. The most recent PCGS/CAC example to sell in auction realized \$17,684 in April 2017. TRULY a major rarity any finer, there are fewer than a dozen currently graded higher, the finest graded at PCGS are a trio at MS61. It is also important to note that NO Mint State coin has ever been beamed by CAC. This important gold rarity is destined for inclusion in a great cabinet of Charlotte mint coins, not to mention an important opportunity for the advanced collector of any branch mint gold or gold dollars.

Virtually perfect surfaces are a delight to behold. Even using a strong glass you will find NO flaws. The luster is moderate and frosty accenting totally original shades of wheat gold color. Miss Liberty and every detail are sharply struck.

The first year of issue of Christian Gobrecht's Coronet Liberty Head design saw a mintage of 33,580.

Two die varieties were used to strike this limited mintage, this is the Small Mintmark or Variety 2, which is much scarcer than the Large Mintmark variety, especially in such a lofty state of preservation. Of both varieties, Doug Winter (2018) estimates that 125-175 exist in all grades.

Only the lightest traces of friction can be detected on both sides of this pleasing, high end AU example. Displaying the typical strike for a Small Mintmark, the peripheral details are very well struck, and the central devices show just some slight softness on the highest most parts of the design. Pleasing, rich orange gold toning graces both sides the lovely color is accented by a satiny mint frost. A great example for the specialist collector.

PCGS 14, NGC 25, CAC 9. This is the only PCGS/CAC example to ever sell in auction, realizing \$8,400 in the 2018 FUN auction. RARE any finer, this coin brought more than a non-CAC PCGS MS61 Large Mintmark in the 2015 ANA auction. What a great opportunity for the advanced collector! Good luck.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

\$2.50 1883 PCGS PR66+ DCAM CAC

Truly a delight to behold! What a stunning example of this extremely rare date! Of the 82 Proofs originally minted, perhaps 30-35 are known in all grades, the present SUPERB GEM is the SINGLE FINEST graded at PCGS in the DCAM designation.

Ultra deep mirrors have stunning clarity, cleanliness, and reflection that are amazing. Brilliant yellow gold frostiness of the razor sharp devices contrasts off the deep, blackness of the fields. The contrast is bold and dramatic. The surfaces are free of anything but the most insignificant line or two, mostly hidden in the orange peel texture of the fields. An amazing GEM coin bound for the finest of sets.

Only 82 were struck. PCGS 4, NGC 2, CAC 4. We sold a PCGS PR66 DCAM CAC in our Regency Auction VI in February 2014 for \$41,125. That coin is the second highest graded among all designations (a 67 CAM is numerically finer). Unpriced in the current PCGS Price Guide, a PR66 DCAM is listed at \$50,000.

A coin like this is always going to command fierce bidding competition and it would not shock us if this SUPERB GEM shattered the all time record.

A glorious bit of numismatic caviar for the advanced collector, this SUPERB GEM has to be one of the FINEST KNOWN, exceptionally well preserved survivor from an original mintage of just 122 pieces.

The mirrors are seemingly endless in their dramatic depth! The reflectivity is blinding, with exceptional clarity and cleanliness that dazzles the eye. Rippling, orange peel texture in the field is a delight to behold. Rich golden-yellow-orange color attests to this beauty's unconserved, totally original allure. Indeed, only a few mint made planchet flakes are noted with the aid of a very powerful glass. Essentially perfect in every way, the eye appeal really is amazing!

Of the 122 Proofs originally struck, John Dannreuther suggests that perhaps 60-70 are known in all grades, including the Mint Cabinet coin that is impounded in the Smithsonian; the Anderson-Dupont-Josiah Lily coin that is also impounded there, and the J. Colvin Randall-J.P. Morgan example that has been in the ANS collection in New York since 1908. This coin would rank in the top five examples listed in his "significant examples." Adding to the allure of the 1894 Proof quarter eagle is the rarity of the circulation strike coins, of which only 4,000 were minted.

PCGS 5, NGC 8, CAC 5. This is the SOLE PR66+ DCAM at PCGS, and has not been sold in auction. Indeed no CAC Approved PR66 DCAM has ever sold in auction either. We sold a PCGS PR67 DCAM CAC that in our November 2018 Regency Auction for \$44,650. \$2.50 1895 PCGS PR65 DCAM

This is a stunning GEM DCAM Proof 1895 quarter eagle!

The fantastic depth of the reflectivity in the fields contrast against the highly frosted devices and display the familiar orange peel texture when studied with a glass. Considerable frost resides on the razor sharp devices, and in particular on Miss Liberty's face and neck which stand out with dramatic contrast. There is a wire rim around much of the obverse. To offer this extreme depth of Cameo contrast, this must have been one of the first of the 119 pieces struck this year in the proof format. There is a tiny mint made planchet flake in the left obverse field which we note for disclosure and it does not affect the overall GEM eye appeal.

John Dannreuther lists a single pair of dies used to coin the 119 Proofs struck with perhaps 60-70 known in all grades, including the ones impounded in the Smithsonian, ANS, and other institutional collections.

PCGS 3, NGC 4. There is a record from our May 2019 Regency at \$21,738 and prior to that, an NGC PR65 UCAM sold in February 2019 for \$19,800 and the last PR66 DCAM sold in 2012 for \$29,900. Simply put, this is a STUNNING Proof Liberty quarter eagle! Everything about it screams eye appeal and premium quality. Of the 136 Proofs produced, perhaps 70-80 survive today in all grades.

The presently offered SUPERB GEM is housed in an older generation blue tag holder and is totally original. Deep, beaming mirrors blaze with a bold depth of clarity that can be seen from across the room. Rich orange-gold coloration attests to the exceptional fresh, unconserved surfaces. The devices are razor sharp with a thick frost on both sides. The orange peel texture is quite strong with the fields looking like a rippling pond. The eye appeal is amazing.

PCGS 4, NGC 7, CAC 8. There has not been a CAC-approved example sold in eight years--last selling for \$28,750 in the 2011 ANA auction. The current Collectors Universe value is listed at \$27,500 and that seems too low in light of the true rarity of PCGS-graded examples. While PCGS lists 10 graded higher in the designation, only one has ever sold in auction (in May 2009 a PR67 DCAM CAC sold for \$37,375). \$5 1813 PCGS MS64

A shimmering, satiny BD-1. A very handsome and high grade survivor of this popular "fat head" five date.

Brilliant golden surfaces have hints of olive hues that appear when rotated in a light. The devices are sharply rendered with crisply defined details throughout. A few minor ticks break the frosty luster, but they have very little, if any, impact on the exceptional eye appeal.

With a mintage of 95,428, the 1813 is the most common year of this series. Most examples were exported and melted down as the specie value exceeded the face value, creating a profitable enterprise. As such, many dates are virtually unobtainable in any grade; the only dates suitable for type collectors are 1813, 1814/3, and 1818. All other dates range from rare to essentially UNIQUE, making this a very challenging series.

PCGS 52, NGC 20. We suspect that the PCGS Population figures include duplicate submissions of the same coin thus inflating the data. The most recent PCGS graded example sold in December 2018 for \$43,200 and the current Collectors Universe value is listed at \$57,500. Extremely RARE any finer; PCGS has graded just eight higher, 6 in MS64+, 1 in MS66 and one in MS66+. Worthy of a strong bid from any collector.

\$5 1813 PCGS MS64+ CAC

WOW! What a stone cold killer GEM Early Gold piece! This coin looks like it sat around forever totally undisturbed. We strongly believe that this coin is so HIGH END, prior to 3rd party grading it would have been designated a GEM MS65.

Overall, the surfaces have a few microscopic ticks on the left obverse (which probably is what keeps this from a full MS65 grade) but are clean and smooth overall. A thick satiny texture adorns both sides. We do feel the surfaces are still GEM quality. A solid luster shows off the beautiful and totally original deep yellow gold color. There are NO spots or discolorations anywhere. Miss Liberty and every detail are sharply struck and have loads of frost. The eye appeal is great plus!

PCGS 52, NGC 20, CAC 13. PCGS has now graded 6 coins in MS64+ with only 3 coins higher. The last auction record for a PCGS CAC MS64 (no +) was \$54,200 in June 2019. PCGS has graded NO MS65's (they have done 2 MS66's). PCGS CAC BUST gold is impossible to find on the bourse floor. This coin represents a tremendous value/opportunity at this time. Plus, it will be a star in ANY set it is placed in. Opportunity knocks loud here!

LOT 478

\$5 1823 PCGS MS63+ CAC

High end and VERY CHOICE! For an early half eagle, this 1823 is of exceptional quality, originality, and visual appeal. We consider this coin to be closer to MS64 quality than MS63. Truly a special example of this very difficult type. For the date, this wonderful early "Fat Head" five sits in the condition census for the date with fewer than a dozen graded in MS63+ or finer grades.

A bold, satiny mint luster glows on rich original orange-gold hued surfaces. The shimmering glow amplifies the crisply struck devices. The eye appeal is heightened by the very smooth, clean surfaces that just show the slightest line or trace of contact anywhere.

Only one pair of dies was used to strike the entire mintage of 1823 half eagles. The BD-1 is rated as a high Rarity-4 with about 80-100 estimated to survive. It is interesting to note that all half eagles from 1821 to 1824 were struck using the same reverse die. In the early days of the federal mint, the figures minted were recorded for the number of coins struck in a given calendar year, regardless of the date on the dies utilized. The die state of the reverse die is earlier for 1823 and 1824-dated coins were actually struck BEFORE the 1822s. The "Fat Head" five series, saw decent sized mintages for the era so collectors may not understand how truly rare they are in all grades.

At the time these beautiful coins were struck, the intrinsic value of the gold exceeded the face value stamped into the dies. Enterprising American businessmen would export their gold coins overseas, where they would be melted, then re-imported into the U.S. as bullion, resulting in a tidy profit for those involved in the trade. The examples that survive today are truly special coins to be treasured.

Collected mostly as a type, the series can be broken down into three date categories: "common" (1813, 1814/3, 1818, 1820); "very scarce" (1823, 1824, 1825/4, 1826, 1827, 1831, 1832, 1833); and "VERY RARE" (all other dates). This date is solidly in the very scarce category and commands a premium over the "common" dates.

PCGS 7, NGC 3, CAC 4. There are three graded MS63+ at PCGS and we believe that it represents duplicate submissions. This coin sold in the January 2014 auction of the Del Valle Collection, where it was graded PCGS MS63 CAC and realized \$70,500. That was the first time since Abner Kreisberg sold the coin to the collector in the 1970s. While we note a PCGS MS64 that sold more recently in the 2018 ANA auction for \$49,200, that coin had some significant scuffs that limit the eye appeal, and we would rank this one higher in terms of overall surface cleanliness. This impressive example should hammer for more than the current Collectors Universe value of \$66,000. What a great coin for any collector of gold types, or the ambitious collector seeking an example of every date in this very challenging series. Regardless, it will see very stiff bidding competition when it crosses the block!

\$5 1840-D PCGS XF45 CAC

The Tall D variety, not noted on the holder. This is the first year of the modified Coronet Head design, which made the curve in Liberty's neck less curved and other modifications which would remain until the end of the series six decades later.

This "GEM" XF is housed in a first generation holder and is totally original! The surfaces are richly toned with a deep honey-orange gold with lighter apricot hues that mingle with olive and lavender patina

that is a true delight to behold! Well struck, as typical for the date, you can tell this coin was fully struck before entering circulation. Crisp definition, we have seen higher grade pieces that are not this well rendered or preserved. The surfaces possess a scattering of abrasions, typical for the date, but none are particularly distracting to the eye. We have to assume this beauty is fresh to the market and has not been to the "doctor's office."

PCGS 16, 10, CAC 1. This coin may have appeared in auction ages ago, but not since it has been CAC-approved. The quality is much better than the most recent PCGS graded example that sold 3 years ago for \$3,550; indeed the eye appeal is better than the PCGS AU50 CAC that sold in April 2018 for \$5,760. The current PCGS value in XF45 is \$4,000 and in AU50 its \$6,000—we suspect this wonderful coin will sell for closer to the AU value than the XF45 value. It is our sincere hope this coin is bought by a collector who delights in the originality and high end eye appeal, and not by someone who is going to dip, strip, and conserve the surfaces in hopes of getting it into a higher grade. It will take a premium bid to bring home this PQ+ beauty!

LOT 480
\$5 1895 PCGS PR65 DCAM

A real numismatic delicacy! What a treasure! We are pleased to present this GEM 1895 half eagle Proof. One of perhaps 35-45 that survive from an original, miniscule mintage of just 81 produced for collectors.

Boldly reflective mirrored fields show lots of the original orange-peel texture that collectors desire, and are hallmarks of the Proofs struck in this era. The razor sharp devices are nicely frosted and provide a bold contrast to the fields. Rotating the coin in a light and using the aid of a powerful glass, we reveal a small patch of hairlines in the obverse field, likely what precluded a CAC approval, but they have little, if any affect on the outstanding naked eye appeal.

PCGS 2, NGC 1. No PR65 DCAM has ever sold via auction, nor do we see any posted anywhere for private sale. The most recent PCGS-graded DCAM was a PR66 DCAM that sold for \$45,825 two and a half years ago. In PR65 DCAM, Collectors Universe lists a value of \$38,500. An important opportunity for any collector to take advantage. Who knows when you will have another chance to bid on a GEM DCAM 1895 half eagle!

\$5 1909-O PCGS MS61 CAC

Only 34,200 examples were struck of this final New Orleans issue for circulation, many of which disappeared into daily commercial use. Very few survive in Mint State, fewer still qualify for CAC approval. For "only" being a 61, this 1909-O half eagle has an exquisite look!

Totally original, with rich orange-golden color that graces the surfaces of the satiny, brilliant surfaces. All feathers both from the headdress and eagle are fully rendered, and the all important O mintmark is bold. Clearly, unlike the vast majority of these that are seen in the marketplace, this lovely, toned piece has never been dipped, stripped, or otherwise cleaned or conserved in hopes of getting a higher grade. While a strong glass reveals a few tiny lines, the eye appeal is VERY BOLD for the assigned grade.

PCGS 29, NGC 76, CAC 13. These are seen very infrequently in auctions, can you believe the last one to sell was in our May 2016 Regency Auction--seems like yesterday! That coin brought \$41,125; prior tot that, one sold in February 2014 for \$47,000. The current PCGS Price Guide value is listed at \$45,000. VERY RARE any finer; this is a KEY issue that is in constant demand from collectors in all grades. Worthy of inclusion in any CHOICE, carefully selected set.

\$5 1909-S PCGS MS64+ CAC

The late numismatic scholar, David Akers wrote, "The 1909-S is one of the four or five rarest issues of the series... Mint State examples at any level are rare and in high Mint State grades, i.e. MS-64 or better, there are probably fewer than 20 specimens in all." Thirty years after his last revision, this fact is borne out by the grading services' population data: PCGS has graded 28 total from MS64 to MS67 and NGC has graded 12 from MS64 to MS66. No doubt both figures contain duplication of the same coin being submitted multiple times, crossed over, etc. Regardless, in such a lofty state of preservation, this coin is a MAJOR CONDITION RARITY!

Typical for the date, both sides show razor sharp definition to the incuse design elements. Every feather is deeply impressed. A satiny mint luster accents the totally original surfaces with ample rich, orange gold color. The totally original surfaces are slightly "dirty" and very eye appealing. A couple of minor marks on the field are all that keeps this impressive, near-GEM from an even loftier designation.

The two finest, the Brand-Duckor and the Norweb-Price-Simpson coins are both thought to have been acquired directly at mint at the time of issue.

PCGS 22, NGC 10, CAC 11. There are four graded MS64+ at PCGS, and just six finer. Prior to this one selling in our May 2019 Regency Auction, we had the pleasure of selling the most recent PCGS/CAC example that realized \$32,900 (not this coin). The current Collectors Universe value is listed at \$37,500. Exceptionally RARE any finer, and none of the ones graded finer have sold in auction since 2011, when a 65 and a 66 sold. This is a very important rarity for the advanced collector and is worthy of a great set of \$5 Indians. We can see this totally original and visually alluring near-GEM sell for a strong price. Good luck!

BD-2. This more common variety of the year, but regardless, these early \$10s are always popular and in demand with limited supply in Mint State holders.

The present MS61 is housed in older green tag holder. The lustrous surfaces have a semi-reflective texture that blooms brilliantly on both sides. The sharply struck central devices have a thick frost that stands out against the semi-Prooflike surfaces. Light scuffs and marks are seen in the fields, but there is no wear on the surfaces. The eye appeal of this fresh Mint State early \$10 is quite pleasing. A great coin for type or date purposes.

PCGS 52, NGC 60. The most recent example to sell in auction was in the 2018 FUN auction where one brought \$26,400 and the current PCGS Price Guide value is listed at \$30,000. A great opportunity to add an attractive early \$10 to your collection, don't let it pass you by!

\$10 1849-O PCGS AU53

What a great opportunity for the advanced New Orleans eagle collector. With a mintage of 23,900 the 49-O began off as a scarce issue to begin with; and most appear to have entered directly into antebellum circulation, as the typical survivor grades VF or XF. Any AU coin is quite rare. In fact, both David Akers and Doug Winter both list this date as among the three rarest dates from New Orleans in the 1840s.

The presently offered example has just some light, even wear. The devices retain a bold definition. Typically abraded surfaces with scattered ticks and marks show off a pleasing olive-gold patina.

PCGS 8, NGC 24. There has not been a PCGS-graded AU53 sold at auction since October 2012, a coin that realized \$7,638. Today the Collectors Universe value is listed at \$9,500. EXTREMELY RARE any finer, PCGS has graded just 10 finer in all grades to MS61, and keep in mind that NONE finer have sold since 2000 in a PCGS holder! Let that sink in! Boldly lustrous with strong satiny surfaces, the eye appeal is excellent. Warm golden color gleams from the fields and well struck devices. We note only a single contact mark by Liberty's neck in the field worthy of mention.

PCGS 35, NGC 22, CAC 9. The most recent example sold in May 2019 for \$10,500 and we sold one in July 2018 for \$10,281; both prices are well in excess of the current PCGS value of \$7,000. Just four grade higher at PCGS, making this a great coin for any advanced set.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

All New Orleans mint double eagles are RARE in Mint State grades, the present date is no exception! This coin ranks among the FINEST graded at PCGS, with just eight coins graded finer. In all, Doug Winter has opined that there are 15-20 Uncirculated survivors, and PCGS CoinFacts suggests 13. There is likely duplication in the population reports, and as they sit, the number of Mint State coins graded at both services is very small.

The present coin has a light golden-orange hue that glows with a semi-reflective prooflike luster that beams in the fields. The devices are sharply struck up and nicely frosted. We note some minor lines on the fields but they do not detract from the superb eye appeal.

PCGS 7, NGC 7, CAC 1. While this may be one of the more available dates from this mint, it is very rare in Mint State. No PCGS MS61 has sold in over a decade. Wow, what a lustrous example of this first year of issue of the With Motto type. An original, borderline-CHOICE Mint State example, this coin is one of the finest known examples, bested by exactly TWO coins.

Vivid satiny luster glows with a vibrant brilliance in the fields. Bold, seductive, deep amber-honey gold accents come out as you rotate the lustrous surfaces in a light. A few scattered lines and ticks are noted, which define the

assigned MS62 grade; the only other thing we need to disclose is some planchet "slag" that is noted at the lower neck and above the 18 in the date.

In 1866, the mint added the motto IN GOD WE TRUST to the reverse designs of the quarter, half dollar, dollar, half eagle, eagle, and double eagle. The first year of with Motto coinage saw 698,745 double eagle coined, most of which went into circulation or were melted later. Most Mint State coins are clustered at the MS60 and MS61 level, just 11 coins have been graded MS62 or finer at PCGS.

PCGS 9, NGC 2. The most recent example to sell was an NGC MS62, which realized \$24,000 in the 2019 FUN auction, and the most recent PCGS coin sold two years ago in July 2017 for \$21,150. The current Collectors Universe value is \$27,500. Note this date is essentially unobtainable any finer. The finest is the AWA-DL Hansen coin that is graded PCGS MS64, which last sold in 2006. There is a PCGS MS63 that has never appeared in auction. PCGS CoinFacts lists another as MS63 estimated grade, which is the former Jimmy Hayes coin which last sold as NGC MS64 DPL in July 2008 for \$126,500. This coin is solidly in the condition census, tied for 3rd or 4th FINEST. brilliant golden luster that radiates with bold, rolling cartwheels. Both sides show a touch of semi-reflective flash that enlivens the apricot-tangerine shade to the surfaces. Close inspection with a loupe reveals the traces of contact consistent with the assigned grade, and nothing seriously affects the outstanding eye appeal.

PCGS 137, NGC 153. The most recent example to sell in auction realized \$20,400 in July 2019 and the current PCGS Price Guide value is listed at \$20,000. VERY RARE finer, PCGS has graded 28 finer, including what we believe to be a decent number of duplicates, and the APRs more than double between MS62 and MS63. A great coin for any gold set! Here is a truly SUPERB and special \$20 Liberty! It is also the SOLE FINEST graded for the date. While a lower mintage, many examples are known mostly below MS64. It does become quite scarce in MS65 and downright RARE any finer.

Thick satiny surfaces are remarkably free of any major marks. Only using a strong glass and really looking around can you find a light scuff or two-NONE are visible to the naked eye. We grade the reverse a full MS67. A thick satiny luster is unbroken and beams from all over. The colors are a rich original gold/deeper gold. Miss Liberty and the details are frosty and are fully struck. The eye appeal is mesmerizing!

PCGS 1, NGC 0. The current Collectors Universe Value shows \$70,000. This coin will be a glorious addition to any high end GEM set of \$20 Libs! We expect very strong bidding for this SUPERB GEM when it crosses the block!

\$20 1907 HIGH RELIEF, WIRE EDGE. PCGS MS63 CAC

Truly a fully CHOICE example of this ever popular gold type.

Rich orange gold color is brought out by a vivid satin mint luster. Some minor contact can be seen here and there, and is taken into account for the MS63 grade. The eye appeal is very nice for the grade.

Arguably the most beautiful design ever used on a circulation strike coin made for use in day to day commerce from the first days of the U.S.

mint in 1792 to the current era. The history of the type has oft been written about in countless catalogs and references, and is directly connected to the wishes of President Theodore Roosevelt's to have a coinage that lived up to America's greatness. Augustus St. Gaudens' striding Liberty carrying a lighted torch, olive branch and majestic flying eagle reverse accomplished that goal. However the high relief nature of the design made mass production difficult. Only 11,250 High Reliefs were struck, before their relief was lowered to the design that ran from 1907 to 1933.

PCGS 979, NGC 276, CAC 112. The most recent PCGS/CAC MS63 sold for \$22,800 in the 2019 FUN auction, and prior to that, they were selling in the \$23,500 to \$25,200. \$20 1908-S PCGS AU58+ CAC

Starting with a low mintage of just 22,000, the 1908-S double eagle is quite rare in Mint State grades. This borderline Mint State coin is so very close, and is the only AU58+ graded by PCGS.

Nearly full frosty mint luster radiates on both sides. A strong glass reveals a few tiny ticks and only the slightest touch of friction on the highest points and in the fields. Pale yellow gold in the center, the color deepens to a warm honey gold toward the peripheral details. The eye appeal is quite nice, PQ for an AU, and certainly highly desirable as such!.

PCGS 115, NGC 135, CAC 21. PCGS and NGC have each graded just a single AU58+. The only one to ever sell in auction was the ex Newman NGC/CAC coin that realized \$9,400 in November 2014. \$50 1851 HUMBERT. REEDED EDGE. .887. PCGS VF30

Wholesome and impressive, this Humbert "slug" is a wonderful example for the collector looking for a straight graded, yet affordable example of this Gold Rush era Territorial rarity.

Pleasing, even wear is seen over the yellow-gold surfaces. The eye appeal is quite handsome with bold definition to the devices and the design elements are only impacted by a few, relatively minor contact. Unlike most survivors, we do not think this coin has been cleaned or conserved and the surfaces are devoid of any major gouges, hits, or cuts. The corners have some minor dings, which for a coin of this heft is quite common, even on higher grade pieces.

After gold was discovered in 1848, the rush was on, as thousands of pioneers, settlers, speculators, including folks with less than noble intentions flooded west looking to stake out a claim and seek their fortunes. Those really were the days of the wild west! Shortly after, enterprising business men established assay offices, where holders of gold could get their dust and nuggets tested, weighed, and smelted into bars, or made into coins. One of the most successful of these firms was Moffatt & Co. which, in 1850 received the contract from the federal government to establish an assay office and provisional mint. Augustus Humbert was hired on as assayer, and dies were produced in New York by famed engraver Charles C. Wright. Over the next few years the operators would change several times, until the Assay Office officially became the San Francisco mint in 1854. The first "coins" to be produced by the Assay Office were the \$50 ingots, which are commonly referred to as "slugs". While many were struck, these are quite scarce today. Readily accepted in commerce, most examples seen today show moderate to extensive wear (as well as other forms of mishandling like cleaning, damage, etc). The Kagin-6 variety offered here is rated as Rarity-4 and is the most "common" variety. It is certain that when the mint was officially established in 1854, many of these large (nearly 2.5 ounce) coins were melted and coined into double eagles. Because these were struck by a federal agency, these really should be considered part of the regular U.S. series; perhaps they will be included in main stream gold type collections, not just in collections of territorial or pioneer gold.

PCGS 25, NGC 16. These do not appear in auction with much frequency. The most recent sold in October 2018 for \$25,200, prior to that, there had not been one sold since January 2014 (realizing \$35,250). The current PCGS Price Guide value is listed at \$32,000 and a coin like this will see strong collector bidding activity. These are extremely desirable historical heirlooms that are always popular. G\$1 1903 LA PURCHASE. MCKINLEY. PCGS PR66 DCAM CAC

Legend Rare Coin Auctions is proud to offer this SUPERB GEM Proof Louisiana Purchase gold dollar. Not only is this among the FINEST survivors from a miniscule mintage of 100 pieces, but it is the ONLY DCAM graded at PCGS in any grade.

The deeply mirrored fields are essentially flawless; with close inspection using a very strong glass, we can find only a few mint made lint marks, which do help to explain the amazing contrast. The highly frosted and well struck devices contrast brilliantly against the beautiful deep mirrors. The eye appeal is absolutely stunning. A truly majestic example of this rarity.

The first 100 examples of both the Louisiana Purchase gold dollar types were struck in Proof and of those, Jeff Garrett and Ron Guth in their Encyclopedia of U.S. Gold Coins (2006) estimate that perhaps two dozen examples survive, although current grading Population Report data shows this to be too low. While we account for the possibility of duplication of records, there are currently 79 in all grades graded by PCGS and NGC. There are also several that still survive in the original framed certificates of issue.

PCGS 1, NGC 1, CAC 1. The current Collectors Universe value is listed at \$40,000. A PCCS PR66 CAM CAC sold in April 2016 for \$32,900, and this coin has a deeper contrast and extremely bold eye appeal that makes it worthy of the FINEST of advanced gold commemorative sets. Good luck!

\$50 1915-S PANAMA-PACIFIC. OCTAGONAL. PCGS AU53

REMARKABLE RIMS! How often do you get to say that when you are cataloguing or viewing a \$50 gold piece? Essentially, NEVER! Some light handling marks are noted, but are certainly expected and commensurate with the grade, as is the light rub on the high points, such as Miss Liberty's cheek and the owl on the reverse. Uniform blonde gold color glides across the silken luster.

One feels a sense of WONDER when holding one of these rarities with its classical design of the helmeted head of Minerva, the goddess of wisdom on the obverse and the wise owl on the reverse. There is so much romance associated with these legendary pieces, not the least of which is the occasion for which they were coined, the Panama Pacific Exposition and the celebration of the opening of the Panama Canal, a stunning feat in its own right. Of the original authorized mintage of 1,500 coins just 645 survived the melting pot.

PCGS 4, NGC 0. We had the privilege of selling this classic issue in our December 2018 sale where it fetched a handsome sum of \$52,250. If you want to add this classic rarity to your cabinet and not have to spend six figures to do it, we suggest you bid liberally on this example.

\$50 1915-S PANAMA-PACIFIC. OCTAGONAL. PCGS MS63

A lovely Pan-Pac slug. The presently offered example is very pleasing with a warm, original, honey gold patination on both sides. Sharply struck devices show their classically inspired design elements in their fullest, crisp forms from an exacting blow from the dies. A stray line or two are noted. Indeed, were it not for some dirt that clings some of the lettering and peripheral devices, this coin would certainly have been approved by CAC and may have even graded higher. While it is quite possible that it can be removed with little effort, we do not assume it will go up in grade.

The Panama-Pacific commemoratives are among the most popular and beautifully rendered in the entire early commemorative series. The \$50 gold pieces are among the great classic rarities of the 20th century and one of the most UNIQUE designs of all American numismatics. The design, with allegorical representations of wisdom, strength, power are presented with Minerva on the obverse and her owl on a pine branch on the reverse. In the corners are swimming dolphins representing the connecting of the Atlantic and Pacific via the newly opened canal in Panama. Regardless of grade, the Pan-Pac \$50 gold pieces are impressive! Only 645 of these octagonal “slugs” were sold at the Pan-Pac Expo, and after. With such a low mintage and unique design, this is one of the “blue chips” of American numismatics.

PCGS 168, NGC 111. Clearly the populations are inflated by resubmissions, crossovers, upgrades, etc. Hard to have more coins graded than were minted! The most recent example sold in September 2018 for \$72,000 and the current Collectors Universe value is listed at \$87,500. Demand is strong, as we even sold a MS62 in November 2018 for \$70,500. Long Island halves were distributed in cardboard holders, and when left unmolested for long periods, the coins that remained in these old holders obtained beautiful multicolored toning.

PCGS 100, NGC 67, CAC 71. PCGS has graded 15 in MS67+ and NONE FINER. There is a wide range of APRs, the most recent selling for \$6,000 in a March 2019 Internet Only Auction, though there is a record for one in April 2013 for \$32,900! Based on the APRs, we believe this **SUPERB GEM** could bring near the current Collectors Universe value of \$9,500. Bound for the **FINEST** of Registry Sets, if you are looking for a high end example, be sure to bid on this beauty!

LOT 528
50C 1934 MARYLAND. PCGS MS67+ CAC

There are your plain Jane Maryland half dollars and then there is **THIS AMAZING** specimen! It doesn't matter how well struck a piece is, it will always have flat spots on Calvert's nose, cheekbones and eyebrows, it's just the way they come. This is one of the prettiest examples the current cataloguer has seen. Truly album toned with the ice blue and sea green hues graduating to peach and gold and ending at white centers. Evenly toned on both sides. **INCREDIBLE MINT BLOOM.**

PCGS 86, NGC 98, CAC 55. Significantly, only 15 pieces have graded MS-67+ at PCGS.

Recent auction records are March 2019 for \$3,120 and June 2019 for \$3,360. This coin merits a premium bid on eye appeal alone!

LOT 529
50C 1926 OREGON. PCGS MS67+ CAC

A beautiful **SUPERB GEM** that ranks among the **FINEST** graded. Shimmering pearlescent surfaces show off a satiny under glow that really brings the sharply struck devices out. The eye appeal is excellent!

PCGS 152, NGC 68, CAC 70. There are 28 in MS67+ and just three finer. The last three examples sold in the \$1,380 to \$1,800 range, and the current PCGS value is listed at \$1,850. None of the three finer coins have ever sold in auction, making this one of the **FINEST** available to collectors. Good luck.

PCGS# 9340 | ESTIMATE: \$1,200+

graded finer, and keep in mind that the last PCGS/CAC MS68 to sell realized nearly \$6,500 nearly three years ago. This high end coin is worthy of placement in a very high end set of Classic Commems.

PCGS# 9350 | ESTIMATE: \$1,100+

imparted a medley of deeper olive-tan and russet-violet patina that really pops out when the brilliance of the mint luster catches a light.

PCGS 99, NGC 50, CAC 70. The current PCGS Price Guide value is listed at \$7,500 and the last one sold for \$7,050 in our January 2019 Regency Auction and we sold a very similar looking MS67+ CAC in our May 2018 Regency Auction for \$9,694. What a great example of this beautifully designed. Good luck!

PCGS# 9357 | ESTIMATE: \$7,500+

PCGS 52, NGC 21. For the variety, PCGS has graded just this single coin as FINEST graded example. PCGS CoinFacts does not assign a value in such a high grade, nor are there any auction records that we can find. What an interesting piece for the advanced Commemorative collection.

50C 1935-S SAN DIEGO. PCGS MS67+ CAC

REMARKABLY mark-free! A jewel of an example with pearlescent luster and a trace of halo, fiery orange toning which lends to the originality and aesthetic appeal. Far above average strike for this notoriously weak issue.

PCGS 239, NGC 106, CAC 87. There are 34 in MS67+ with just nine coins finer. The most recent MS67+ with CAC approval to sell in auction realized \$3,055 in our May 2019 Regency Auction, and prior to that, one sold for \$1,140. The current PCGS value is listed at \$1,400 and this one is truly worthy of a hefty bid!

50C 1936-D SAN DIEGO. PCGS MS67 CAC

Beautifully toned on both sides, this impressive SUPERB GEM sports wonderful eye appeal. Totally original, this coin is awash in rich olive, amber, violet, blue, and yellow-gold patina; the subtle changes in hue are brought out dramatically as the bold luster catches the light. The quality and eye appeal are hard to beat!

PCGS 108, NGC 55, CAC 74. There is a wide range of APRs, and in its most recent appearance, this beauty brought \$1,260 in March 2019; we know today, it will bring another strong bid. RARE any finer.

LOT 535

50C 1926 SESQUICENTENNIAL. PCGS MS65+ CAC

The Sesquicentennial half dollar is one of the hardest early halves to find nice, regardless of grade. Unlike other early commems, the silver surfaces did not tone nicely. Likewise, the low relief design rarely comes fully struck up. The presently offered PQ GEM is the total opposite! Washington and Coolidge's portraits are crisply defined, as are the details on the Liberty Bell reverse. Exceptionally vibrant luster for the type brings out the subtle rainbow peripheral toning. The eye appeal is excellent!

PCGS 398, NGC 296, CAC 95. This is a very high end GEM that is worthy of placement in a high end Commem half dollar set. The current PCGS Price Guide value is listed at \$4,000 and APRs are all over the place. Keep in mind that this is the highest affordable grade most collectors will ever hope to obtain for their sets, as the population in MS66 is just 13 and one finer at MS66+. What a great opportunity for the advanced collector.

PCGS# 9374 | ESTIMATE: \$3,500+

LOT 536

50C 1936 TEXAS. PCGS MS67+ CAC

Very eye appealing! We love the look of this SUPERB GEM. Satiny brilliant surfaces glow with a strong luster which is framed by a rich orange-gold tone that was imparted by long term storage in an old album. The devices are all sharply struck up with full definition, bringing out all the details of the intricate and busy reverse design. The eye appeal is exceptional and very high end.

PCGS 206, NGC 137, CAC 88. There are 16 graded 67+ at PCGS and just 10 finer. The last CAC-approved example sold in February 2019 for \$1,620 and the current Collectors Universe value is listed at \$1,200. Keep in mind any MS68 is going to be a near five-figure coin; this is a great coin for any advanced collector.

LOT 537

50C 1925 VANCOUVER. PCGS MS67+ CAC

One of the **FINEST** graded Vancouvers and a coin truly worthy of its lofty grade and accolades!

A billowing, brilliant mint bloom sets both sides of this **SUPERB** coin aglow. Sharply struck up, the devices stand out against essentially **PERFECT** surfaces. A dusting of original toning on both obverse and reverse adds to the strong visual allure!

PCGS 84, NGC 55, CAC 42. There are only 17 coins graded MS67+ at PCGS, with three finer. The only PCGS/CAC example in 67+ to ever sell in auction realized \$4,772 in September 2015. This remarkable coin has a similar look, and should realize that or more. PCGS lists a value of \$5,750. With only three coins finer, this is a great opportunity to add one of the **FINEST** examples to your set!

50C 1948-S BOOKER T. WASHINGTON. PCGS MS67+ CAC

WOW! Flashy! This coin is semi-Prooflike with a bold reflective luster throughout on both sides. Brilliant silver with just a dusting of peripheral gold adds to the outstanding visual allure.

PCGS 41, NGC 68, CAC 48. There are five in 67+ at PCGS and **NONE** FINER. This is not the one that sold in the 2019 Central States auction for a record \$5,760. This totally unique looking **SUPERB GEM** is destined for the **FINEST** of PCGS Registry Sets. A runaway price would not shock us at all.

PCGS# 9414 | ESTIMATE: \$4,200+

LOT 538

50C 1946-S BOOKER T. WASHINGTON. PCGS MS67+ CAC

Whoa! Talk about a beautifully toned Booker T. Washington! For a type that usually comes either untoned, pearly, or unattractively toned, this **SUPERB GEM** not only ranks among the **FINEST** graded, but also has to be one of the most beautifully toned examples we have had the pleasure of handling!

Swirling greens, oranges, and pinks are brought out by an intense, satiny mint luster on the obverse and gold, fuchsia and sky blue on the reverse. The obverse color rates a 9.5+ on our 10 point scale, this **SUPERB GEM** is worthy of the **FINEST** toned commemorative collections.

PCGS 130, NGC 90, CAC 102. There are 17 in MS67+ and just five finer. Our recommendation in helping you formulate your bid: ignore prices realized and price guide values and go with your gut--who knows when another gorgeously toned example like this will appear on the market!

PCGS# 9406 | ESTIMATE: \$1,500+

LOT 540

50C 1952-D WASHINGTON-CARVER. PCGS MS66+ CAC

Tied for **FINEST GRADED**, and arguably one of the most attractive examples with pearly white lustrous surface that are toned in ripples of blonde and honey gold hues. An issue that is known for its notoriously weak strikes where planchet striations are noted. Thankfully, this coin is free of those issues and simply has some light contact marks, which are typical for the issue.

PCGS 86, NGC 18, CAC 21. There are 10 in MS66+ and **NONE** finer. The current PCGS Price Guide is \$3,150 and prices of MS-66+ examples have varied greatly in 2019, from a low of \$1,980 to a high of \$3,600. This coin is certainly worthy of a bid on the higher end of the price realized spectrum. Good luck!

LOT 541

25C 1870 J-890. PCGS PR65 RB CAC

This gorgeous GEM example of this R-7+ Standard Silver pattern quarter is tied for FINEST honors at PCGS and is fresh to the market. Barber's Liberty head wears a cap with three stars and hair tied in a ribbon, inscribed LIBERTY. Struck in copper with a reeded edge. The rich mirrors are a deep brick red color with overtones of magenta and violet. The eye appeal is spectacular and the surfaces are impeccable for the assigned grade. Indeed the only thing we see that might keep it from an even higher grade is a fleck or two hidden in the obverse legend. All the details are razor sharp too!

PCGS 2, NGC 0, CAC 1. This is the first example enumerated by Andrew Pollock in his reference, being ex Superior's June 1977 sale of the Dr. Couch Collection, lot 416; Bowers and Ruddy's July 1981 sale of the William R. Sieck Collection, lot 141; and Mid-America's September 1985 San Diego Sale, lot 997. We cannot trace it since, and housed in a second generation holder, it may well have been off the market since then--the definition of FRESH. The Simpson coin that we sold in January 2017 sold for \$6,463. Worthy of a very strong bid, this coin is bound for a specialized Standard Silver pattern collection.

25C 1870 J-914. PCGS PR65 RB CAC

Tied for FINEST KNOWN and arguably the nicer of the two, with its outstanding pedigree and nearly FULL RED surfaces! Swirling hues of gorgeous pale rose and magenta, dance across shimmering, deeply mirrored fields, in an aesthetic blend that is delightful to the eye. The crisp design elements exhibit thick, unbroken mint frost accented by wisps of ice blue and soft pink hues. Listed as a Rarity-7 and one of a mere 9 extant specimens!

How can a coin this rare, be so affordable? A mystery that adds to the allure of the pattern series, and makes it such a fascinating pursuit for the collecting enthusiast. This piece is a piece of tremendous rarity and beauty for a fraction of the price of a standard issue from the regular issue series. If you have never considered collecting patterns, this coin should convince you of the unique opportunity this series presents to put together a world class collection without breaking the bank!

PCGS 1, NGC 1, CAC 1. There has not been an example of this VERY RARE Standard Silver pattern quarter in this grade since 1994! The only J-914 to sell in auction this DECADE was a PR64 BN in our June 2016 Premier Session. Unpriced in Collectors Universe in this lofty state of preservation, we think our estimate will prove conservative when the hammer falls! Good luck!

Ex Denali Collection.

Tied with just the Bob Simpson example as FINEST J-923 graded at PCGS. A very tough R-7+ Standard Silver pattern, struck in aluminum with a reeded edge. A gorgeous, boldly contrasted superb gem from this specialized collection of 1870 patterns. Well struck devices are very frosted and contrast nicely against highly reflective mirrored surfaces.

PCGS 2, NGC 1, CAC 2. Nearly two years ago, we sold this coin for \$7,628 in our December 2017 Regency Auction, and in the May 2017 Regency Auction, we sold the Bob Simpson coin for \$8,519. The current Collectors Universe value is listed at \$11,000. Bound for an advanced Pattern collection! Good luck!

LOT 544

25C 1871 J-1096. PCGS PR66+ CAM CAC

A truly magnificent example of Longacre's Seated Indian Princess design, the **FINEST** known of this Rarity-7- pattern quarter (7-12 known). We love Longacre's elegant design that shows Liberty presented as a seated Indian Princess holding a pole with a Liberty cap on top. She supports a globe with two flags draped behind her. This design was implemented by William Barber after James Longacre died. An interesting anomaly about this coin is that it does **NOT** say UNITED STATES OF AMERICA on either the obverse or reverse.

Fully struck up in nearly high relief definition, the frosted obverse devices stand out in full 3-D effect against the deeply and highly reflective watery mirrored fields. A warm, glowing amber-orange and gold toning shows off some icy blue and deep silver color on both sides. The mirrors are icy smooth and completely devoid of anything but mint made die polish lines.

PCGS 1, NGC 0, CAC 1. Finer than the Eliasberg coin which is graded PR66 by PCGS and impounded in the Simpson Collection. This remarkable, **SUPERB GEM** is better looking than the NGC PR67 CAC Newman Coin that sold in April 2013 for \$10,575. This coin was the NGC PR67 that sold in the 2018 ANA auction for \$13,200. In PR66 (not CAM) the current PCGS Price Guide value is listed at \$15,000. This amazing **SUPERB GEM** belongs in a **WORLD CLASS** Pattern set and should bring a record bid when it crosses the block.

LOT 545

\$3 1875 PCGS J-1436 GILT. PR64 CAC

This is a wonderful example of this VERY RARE R-7+ die trial of this important KEY DATE \$3 gold piece!

Struck from the regular \$3 gold dies in copper then gilt. These off-metal strikings are listed as die trials in the literature, but Saul Teichman of uspatterns.com suggests that they more likely were struck for contemporary collectors and sold in full sets from the cent to double eagle. Due to the rarity of the Proof Only 1875 \$3 in all grades, some of these pieces were gilt to simulate the regular gold strikings.

The watery reflection of the fields comes through the gilding in the fields and the reliefs show a lovely glossy finish. Sharply struck on both sides the devices stand out wonderfully. There is a touch of an iridescence and a tiny fleck or two, which attest to the excellent originality and add to the eye appeal.

PCGS 1, NGC 1, CAC 1. We are only able to trace a single example of this Judd # that was gilt as having sold in auction--this one. At the time of both prior auction appearances, it was NGC-graded. As we noted in the description of the J-1436 we sold in June 2019, we believe this coin is also the example that was in the Sussex Collection Auction, Bowers & Merena, June 1990, lot 249. The most recent of Judd-1436 to sell was the PCGS PR65 RB CAC that we sold for a record \$73,438 in our June 2019 Regency Auction. Keep in mind that a Proof 1875 \$3 gold piece, regardless of grade is going to be a six figure coin, this gilt copper Pattern \$3. Missing from essentially every major pattern auction of the last generation and missing from essentially every pattern collection. Truly a coin that is under appreciated and should be worth more!

LOT OF 12 1965 SPECIAL MINT SET COINS

This is an interesting lot of these modern issues. A lot of excellent quality GEMS and SUPERB GEMS, all graded by PCGS unless noted, consisting of the following:

CENTS: SP68 RD; SP64 RD CAM (2); SP65 RD CAM; SP66 RD CAM (2); MS67 RD CAM NGC (2).

DIME: SP68 CAM.

QUARTERS: SP68; SP67 CAM.

HALF DOLLAR: SP68 CAM.

The clad and silver clad coins have the appearance of being essentially full Proofs, while the copper coins have varying degrees of bold reflection.

The NGC-graded cents, the dime, and the half dollar are all among the FINEST graded of their respective issues. The combined PCGS Price Guide value of this lot is \$18,145. Take a look at this lot, and help put together the FINEST graded 1965 Special Mint Set.
